Pope Paul VI for True Peace

He Volunteers to Help Negotiate Vietnam Peace

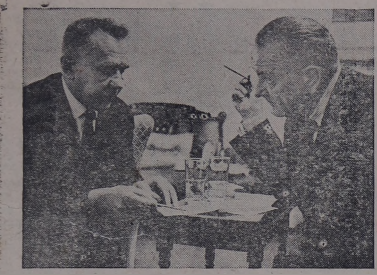

Pope Paul VI is willing to help in negotiating for ending the war in Vietnam. His stand is non-partisan. He is interested to restore a true peace. Pope Paul had a 63-minute talk with Pres. Lyndon B. Johnson in Rome on his way to U.S. from Australia where he attended the memorial services for the Australian Premier Harold Holt, last week.

Pope Paul VI

Their talk centered on their hopes for a peaceful end to the Vietnamese war. The Vietnam war had a 24-hour truce

or cease fire last Christmas eve, December 1 by allied forces which ended 6 p.m. last Monday.

QUEST FOR WORLD PEACE — Soviet Premier Alexsei Kosygin and U.S. President Lyndon Johnson conferred at Glassboro, New Jersey. The two leaders met for more than 5 hours on June 23 and returned 2 days later for another 4 hours of private conversations. Both described the talks as "useful" in the quest for world peace. They agreed "to keep in good communications" in the future.

DBP Marks 21st Anniversary

From its birth on January 2, 1947, the Rehabilitation Finance Corporation became a powerful instrument for carrying out the task of reconstruction.

When the work of rehabilitating the devastation and havoc wrought by the war was thought to have been completed, the Rehabilitation Finance Corporation became by legislative fiat the Development Bank of the Philippines. This was in June 1958.

The transformation of the RFC ushered in important and fundamental changes in its functions and outlook. It shifted its

attention and its resources to bear upon the problems of promoting the economic development of the country. And since investment capital is very scarce factor of production, the DBP played the pivotal role of allocating resources according to a national strategy for attaining economic development.

The DBP, being a purely government entity, has

Rail-Skates Underline Need "Quirino" Highway

By RAMON H. FELIPE, JR.
 Congressman, 1st District of Camarines Sur

General Manager Nicaron T. Jimenez of the Phil. National Railways has recently outlawed the improvised "rail-skates" now commonly used in the so-called railroad towns of Tagkawayan, Quezon Province, and Del Gallego, Ragay, Lupi and Sipocot, Camarines Sur Province. This drastic action was prompted by the recent death of a young Larrio schoolteacher, Mrs. Loreto Gonzales y Tolete of Barrio Banga, Ragay, Camarines Sur, who was fatally hit by a Bicol Express train, while riding a "rail skates" with other co-teachers on their way from the barrio to the po-

blacion of Ragay. A "rail-skate" is a home-made device, consisting of a wooden platform, to which are attached three sets of roller-bearings, which serve as wheels. It uses the tracks of the Philippine National Railways and is propelled by the operator by pushing with one foot on the ground. It can carry two paying passengers, at a reasonable rate of speed, especially on down-grades.

The "rail-skate" is a device born out of sheer necessity. The above mentioned "railroad" towns and their barrios are strung out of an average

FM's First Stop is Malaysia In His Three-Country Tour

President Marcos' first stop will be Malaysia, then to Indonesia & Thailand, when he starts his state visits on January 7, 1968, in neighboring Asian countries.

Press Secretary Jose D'Aspiras said the following dates have been fixed for the visits: Malaysia—Jan. 7-10; Indonesia-Jan. 10-13.

Aspiras said the trip to Thailand will start January 13, and the President will return to Manila January 17.

The Malaccaiang spokesman said that the visits will be made in furtherance of the President's desire to help accelerate active cooperation between the Philippines and her Asian neighbors.

He also pointed out that the state visits were dictated by diplomatic protocol which demand that the President now reciprocate the gesture of goodwill demonstrated by the heads of state of the three countries during their own visits here.

ADNAA to Honor Poll Winners

The Ateneo de Naga Association will award certificates of merits to all newly elected alumni officials and other alumni who have distinguished themselves in other fields this year during the ADNAA luncheon in the gym-auditorium on Rizal Day. Invited guests speaker for the 21st ADNAA Homecoming affair is Senator-elect Benigno S. Aquino, senatorial topnotcher in Camarines Norte, the ADNAA president's home province. A celebrated Mass by alumni priests, a motorcade and floral offering at the Plaza Rizal, the traditional noon luncheon and evening Blue and Gold Ball will mark the ADNAA Homecoming this December 30th.

Updated Ateneo de Naga alumni files record another provincial governor, a total of ten mayors (two of chartered cities), two vice-mayors and two city councilors with governor-elect Armando Cledera, HS's 41, Mayor Vicente Sibulo, HS' 4, of Naga City and Mayor-elect Gregorio Imperial Legazpi City heading the roster of winning alumni in the '67 elections.

Mayor-elect Jose Timoner, HS' 48 of Daet, Camarines Norte had for campaign manager his brother Frank Timoner, 20th ADNAA President. Other members of HS' 4 - Jose Ricarte was re-elected mayor of Oas (Albay) while Eusebio General was voted back to the City Council of Naga. Other elected mayors are Esteban de la Cruz of Ganza (C. Sur) and Francisco San Jose of Juban (Sorsogon) both of HS' 69; Ernesto Tino, AA' 51 of Bato; Eugenio Aguilar, HS' 54 of Cabauso; Gualberto Manlangit, HS' 55 of Tiganon; Ramon Constancio, HS' 57 of Buhit - towns of Camarines Sur. Elected vice-mayors are Ramon Haneses, AA' 49 of Legaspi City and Romeo Gonzales, HS' 55 and BSC' 62 of Polangui, Albay. Carlos Castillo, AA' 54, likewise made the magic seven of the Naga City Board.

FM on Human Rights

President Marcos declared recently that the acceptance of human rights by the government and peoples of the world is "one of the foundation stones of civilization."

During the observance of Human Rights Day, the President pointed out that it "is both as reminder and an encouragement" for enlarging the "moral possibilities of our culture" through the extension of Human rights to every individual and community in the world.

Of PW Funds: Allotments, Releases Investigations

RA MOS. 5187 carries an allotment of about P111,000.00 for various small public works projects in Cam. Sur though fully sponsored by Sen. Gerry Roxas and which is broken down as follows:

- Tinambac - for barrio Tierra Nevada, construction of school building - P5,000.00; and for the construction of a barrio market building in same barrio - P5,000.00.
- Lagonoy - construction of school building at barrio Agapao - P5,000.00.
- Rigay - construction of school building at barrios Salvacion and Lahang - P5,000.00 each.
- Parabucan - construction of school building - P5,000.00
- Bulo - construction of feeder roads - P5,000.00
- Iriga - construction of academic building at Bn. San Antonio, P10,000.00.
- Milnor - aid for various PW projects - P2,000.00.
- Nabua - construction of Roxas Social Pediatrics Pavilion - P7,000.00.
- Construction of road bisecting to Bulo - P2,000.00
- Cannigilan - Completion of various community projects - P5,000.00
- Tigabañ - Repair of municipal streets - P5,000.00
- Cataganan - Construction of Sea Wall - P10,000.00
- Buhit - Construction of Feeder roads (Sta. Isabel & San Isidro), San Fernando - Construction of Cogan Dam - P20,000.00 (P10,000.00 Naga City-Drainage lay out & construction for barrio Tabaco - P30,000.00).

Mr. Marcos should explain thru Commissioner Su-Chango, the nature of the 22 million pesos in government funds released during the 5-month period immediately preceding the last elections as exposed by Sen. Roxas; otherwise he's just as good as making his own obstacles in '69.

The LP Senators are right in demanding from the Budget Commissioner the nature of the funds released during the electoral campaign period. It's most unfortunate though, that Mr. Su-Chango is responsible only to Mr. Marcos, and the latter in turn is responsible only to the people. Nevertheless, Sen. Ziga & Co. should know better than making Commissioner Su-Chango their source of information.

Sec. Antonio Raquiza reportedly spent almost all of his 12 million peso contingent fund and about half of his 9 million discretionary fund during the period from Oct. 1 to Nov. 20, 1967. So What? He was authorized by Congress to spend it, wasn't he? Why blame Raquiza or Marcos, for that matter? If at all, there should be anyone who should be more blamed for all these abuses of public funds expended, it should be every people who approved the national budget in the first place.

There is no truth to the rumor that another Marcos cabinetman is due to resign for the complication of his wife in another shady government deal.

Prizes for Red Cross Tickets Raffle Here Reduced

Prizes stipulated in the Red Cross raffle tickets will suffer major changes due to losses wrought by typhoon "Whelming" to agricultural crops and properties in Naga City and Camarines Sur. This was the consensus of opinion made by members of the local Red Cross Board as attempt to step up sales of raffle tickets failed to materialize. Individual agents and group agents like Public School Teachers, Municipal Mayors and Treasurers, other Red Cross volunteers and supporters due to hardship in the present living condition the effect of last natural disaster failed to cover their respective quotas or goals.

Dr. Joaquin I. Perez, Camarines Sur-Naga City Chapter Chairman of the Benefit Division, at special meeting of the PNRC board, presented the problem after hearing a report on partial collection amounting to P3,700

The raffle, a fund raising drive, supposed to be held December 31, 1967, registered a very poor sale and placed the local Red Cross board in dilemma.

Considering the poor sales output and the expenses incurred incident to the holding of this raffle plus the individual or group shares of solicitors, the local Board modified and approved the following prizes: 1st Prize: P50; 2nd Prize: P30; 3rd Prize, P20; Group agents selling the first Prize, P50; 2nd Prize P30; 3rd Prize, P20.

Incentive prizes for agents or solicitors will also be given on the following basis: Individual agent selling the 1st Prize, P20; 2nd Prize, P30; 3rd Prize, P20; Group agents selling the first Prize, P50; 2nd Prize P30; 3rd Prize, P20.

PETE L. AMPOLOQUO

It's supposed to be merry christmas, but my paisano, the "Partial Reviewer" is never merry at all. His candidate was unable to go through. Unknown to the "Star Witness" is the story that Mr. Diez was the "mastermind" of the Puentebellas-for-governor movement. Manong Andres, mayo lamang kina dtan? Veinte sana.

The election of governor Armando Cledera is a blessing to the Nationalistas in the province. Under the NP party rules, he automatically becomes chairman of the party. The fight for supremacy is over.

Former Rep. Juan F. Triviño appears to be interested in having a return bout with the incumbent 1st district Congressman, Mr. Triviño must have heard that the "great parassakdo" is in trouble. No "lagdong sakdo" this time.

The people of Naga City did not believe that Concejal Naldo Barja consumed more NESCAFÉ than Hizonzo Inting Sibulo. They elected the man to the City Board. No more coffee break this time, maybe.

Atty. Gerry ORAA, my candidate for Congress in 1969 is the most academically prepared man for that fight. He holds two engineering degrees in addition to his law degree. What he lacks is a "third degree" in the assessment business.

Councilor-elect Bob Ruelo will soon be the guest of honor of a meeting of the "CASARROAN NIN KINAPOBREHAN" headed by Mr. Jacinto Romero. This organization after all is not a political group. Its activities are not limited to the campaign period.

The incoming Naga Municipal Board should learn from the bitter lessons of the past. Partisan considerations should be subordinated to the overall interest of the people. That's the only brand of politics which will stand the test on the day of reckoning.

Why are we supposed to be happy during the Christmas season? The heavenly hosts proclaimed the answer. Glory be to God in the highest. Reason? He has declared that henceforth man is at peace with Him. God sees sinful man through the perfection of His own beloved son. Christian joy is founded on the rock of divine pardon.

The rebellious attitude of our young people may be traced sometimes to the stubbornness of parents in refusing to see things from their young ones point of view. Love and understanding from a father or mother can go a long way to cement a lasting harmony in the family.

The rising wave of criminality reveals the powerful influence our movies and comics have over those who patronize them. Stories glorifying crime amount to a hypnotic suggestions through association. The mind of man is largely "subconscious" and this subconscious state is highly susceptible to suggestion. Under the influence of his conditioned mind, man stands helpless.

Export Industries Boasted By FM

President Marcos conferred recently with his economic advisers on ways and means of stepping up financial support for export industries, particularly the coconut industry, logging and mining.

The President stressed that top priority be given the coconut industry in the implementation of the administration's P100-million loan program to aid the industry.

He told the financial advisers to endeavor to devise ways and means by which loans under this program could be granted more expeditiously.

The President pointed out that it was necessary to avert a possible drop in the volume of coconut exports in the next two years. He explained that this reduction in coconut exports may

Relax, Mr. Padilla, Relax

Senator Padilla, in his recent speech delivered at the Manila Bay Breakfast Club before its members, made himself very clear in his denunciations against the armed goons, with PC officers support, that made the last election the "bloodiest and the dirtiest".

To include PC officers in his charges for corrupting our elections is a very serious matter that he should not condone. He should see to it that they are tried before the military court of justice. If there are witnesses. To accuse is one thing. To prove is another. If Senator Padilla sees no way by which the political crimes committed can be proved in any court, I personally believe that, for the peace of his conscience, it would be wiser for him to keep quiet about all that happened.

If it is true that those who terrorized the elections by committing a hundred murders are goons, who are they? By whom were they hired?

Who were the PC officers that he said supported the goons?

Senator Padilla should know that it is not he alone who is eager to have them prosecuted and penalized to the limit of the law.

- The moros are eager.
- The Igorots are.
- The Visayans, Bicolanos, Tagalogs are.
- The religious and sectarian organizations are.

So he has practically all the peaceful citizens of our country behind him.

With reference, however, to some killings and frauds being committed in our country every election campaign, one fact remains incontrovertible for evidence of Senator Padilla. And that is that those who commit them, either by their own free will or by inducement of others are fools. Or imbeciles. Or stupid. Or Mr. Padilla may have other descriptions for them.

One hundred fools or more that emerge from the earth inhabited by 33 millions of free people only represent an infinitesimal portion. And can not be avoided by even the enactment of the severest of laws.

Mr. Padilla should understand that.
All Liberal critics should also understand the same.

To blame President Marcos of the crimes committed by the fools is out of order.

Foul. Mean. Brutish. Unjust.

President Marcos campaigned for the candidates of his party. He appealed to the electorate for support on the basis of the achievements of his administration. He did not entice anyone to kill another. No President can ever think to be unlawful.

- Not even Mr. Padilla, if he becomes one.
- Not even Roxas.
- Not even Osmeña.
- Not even Villareal.
- Only the Octopus of Mindanao can.
- Only Mao Tse Tung can.

Therefore, out of respect to the high position that he occupies, it is expedient that Mr. Padilla learns to temper his language against President Marcos who is easily his Sire in all respects.

- In law.
- In imagination.
- In bravery.
- In love of country.
- In administrative wisdom.
- In personal behaviour.
- Also, perhaps, in other matters.

While it is a privilege of a citizen in a democracy to criticize anyone in public service for any wrong done, the same privilege exacts the critic to exercise prudence and always the best of manners.

Senators and good manners are presumed to be synonym, eh, Mr. Padilla?

Airstrip Alongside Friendship Highway

Seven airstrips alongside the projected Friendship Highway in different regions of the country have been programmed for construction. They will be located in the vicinity of Claveria (Cagayan), Abuyog (Leyte), Himayan (Leyte), San Francisco (Laguna), Cuevas (Agusan), Balabag (Davao) and Licum (Zamboanga del Sur). The plan to construct these airstrips simultaneously with the Friendship Highway was approved by President Marcos last Nov. 29. Aside from serving as emergency landing fields, the airstrips will also serve as driers for paly, places for public meetings and athletic meets, and as stations for motorists and buses.

Field workers of the Presidential Arm on Community Development in the Central Luzon have been enjoined to help barrio people in the celebration of Community Development Week on January 1-7, 1968. Malacañang was informed recently.

Director Rosendo Marquez of the I CD Area made this appeal to all field workers in the area upon receipt of the presidential proclamation declaring the first of January as Community Development Week.

In the proclamation, the PACD assigned the job of all activists a 3-D program in the observance of the week.

Director Marquez also added that all provincial governors, city and municipal mayors and barrio captains are enjoined by President Marcos to give fitting observance of this week in order to foster among the people the spirit of community development thru self-help, and thus encourage them to become active participants in the development of the country.

President Marcos, it was learned, made this proclamation in recognition of the value and significance of community development in improving the lives of barrio people.

CARRIER CHRISTENING—"I christen thee John F. Kennedy," says Caroline Kennedy, daughter of the late U. S. President, as she breaks the traditional bottle of champagne on the hull of the new aircraft carrier. Watching the ceremonies at Newport News in Virginia are President Johnson, John Kennedy and Mrs. Kennedy. In an earlier address to the crowd of 15,000 in attendance, Mr. Johnson expressed the hope that "the carrier's years will be years of peace."

KENNEDY AFLOAT—Tugs push the aircraft carrier John F. Kennedy into the James River at Newport News in Virginia following christening ceremonies. The 61,450-ton vessel will undergo further outfitting. It measures 315 meters in length and is the largest nonnuclear carrier ever built. When completed in 1968, it will carry a crew of about 5,000 men.

Storage Warehouse Construction and Coconut Farmers Loans Available at DBP

Responding to the representations of people engaged in the rice and corn industry and anticipating the warehousing needs of the country resulting from increased harvest of these staples, the DBP wishes to announce that it will finance 100% the construction of storage-warehouse or construction of an annex to an existing storage-warehouse or rice mill wherein the standard plan prepared by the DBP for the purpose.

The term of payment is 5 to 10 years in equal quarterly or semi-annual amortizations counting from the date of last release at 7% interest per annum. Release shall be made in installment as funds are needed and as construction progresses after perfection of necessary documents. Interest on partial releases are payable quarterly.

Generally, this type of financing is available to rice producers, traders and millers who are RICOB members although preference will be given to producers who undertake scientific farming practices such as seed leaders.

selection, pest control, fertilization, etc., and to traders and millers who are already in the rice and corn trade. Collaterals shall consist of a first mortgage on unencumbered real estate (site of warehouse) and insurable improvements thereon. Documents needed for this type of loan are the following:

1. Certification that applicant is a bona-fide member of the RICOB;
2. Title, or other evidence of ownership to land;
3. Tax declaration, tax receipts and other government imposts for current and previous years;
4. Location Plan;
5. Audited Financial Statement; and
6. Estimated income and expense statement.

Building constructed out of this loan are to be insured as may be required by the Bank. The warehouse must be bonded. Also, in order that farmers with existing coconut loans whose plantation were devastated by typhoon "Weling" could immediately rehabilitate their farms, the DBP is extending additional loans to farmers who were victims of typhoon "Weling", subject to the following conditions:

1. The amount of additional loan shall be the difference between the new loan value of the land as reappraised and the balance of the account;
2. That the loan value shall not exceed 80% of the prospective appraised value of the land;
3. That the additional loan shall be used to rehabilitate the farm and promote auxiliary projects, such as poultry, pigery and raising of other crops;
4. That the additional loan may be repaid beyond the unexpired term of the principal loan, provided that it does not exceed 10 years;
5. That the rate of interest shall be the current rate on agricultural loans; and
6. That if the original loan is in arrears, a satisfactory arrangement shall be made for a new plan of payment prior to or simultaneous with the granting of the additional loan.

LEGAL NOTICE

Notice is being given that the estate left by the deceased Paterferio Imperial has been extrajudicially partitioned by the heirs, namely, Magdalena E. Imperial, Alejandro Imperial, Jocelyn Imperial and Remedios Imperial affecting the property located in San Isidro, Pamplona, Camarines Sur designated as Lot 1945, Pls-773-D under Tax Declaration No. 1420 with an area of 1,420 square meters more or less.

NOTICE OF SETTLEMENT OF ESTATE

An affidavit of Adjudication executed by Florentina Alivarar as exclusive heir of the late Severino Alivarar and Antonia Monte, covering a parcel of land situated in San Antonio, Miloro C. Sur containing an area of 8,236 hectares, declared under Tax No. 1256 with a portion of 3,576 Hectares. Has theretofore being hereby confirmed to have been sold to Ildelfonso Tiplones. Said affidavit bears Doc. No. 79; Page 99; Book No. III, Series of 1967 of the Notarial register of Notary Public Gavino Celso.

Pub. Dec. 30, '67; Jan. 6, 13, '68.

always adhered to two basic policies in the distribution of its loanable funds. These are:

1. To spread the benefits of its liberal credit as to many borrowers as possible within the framework of the established priority for project; and
2. To sow the development throughout the entire country and thus try to minimize great inequalities in welfare and economic conditions among the different regions or provinces.

The result of the first policy is at once apparent in the size of loans granted by the DBP. Loans of P5,000 and below constitute approximately 71% of the total number of outstanding accounts granted by the DBP.

The objective sought to be attained by the first policy is essentially socialistic in nature. It is undeniable that one of the fundamental aspirations of our society is to raise the great mass of our people from poverty and elevate them to the standing of middle class.

The second policy has given rise to the preoccupation of DBP of bringing its credit facilities to all the regions of the country. Service, therefore, has always been emphasized as a key factor in lending operations of the DBP. Service in the sense means, from the viewpoint of the DBP, bringing itself closer to its clients to a point where it can perform its operations efficiently and where it can be approached by borrowers with a minimum of effort and expense. This concept foreshadowed the establishment of a network of branches and agencies all over the country.

The first branches of the DBP were established along the idea of trying to keep a balance between two factors - maximizing the branch's capability to service as large a region and as many borrowers as is possible and optimizing the profitability of their operations.

Oftentimes, the objectives of service and profit do not coincide. They may require different or even conflicting plans of action. However, the rationalization of both factors was considered necessary in order to prevent dissipation of funds in operating expenses and, corollarily, to build up the resources of the DBP to keep it constantly in a position of strength to meet the ever-increasing demand for development credit.

The effort to harmonize the service and profit aspects led to the establishment of the

distance of 10 kms. over a 70 kms. stretch from Sipocot to Tagkawayan. There is no highway linking them. The only means of transportation is either by sea or by air. The Ragay Gulf, which opens on the China Sea or the Philippine National Railway. The latter, however, runs only one local train a day, which stops in all these towns and their barrios, a long trip of at least five hours. So, if a barrio resident takes the train on a certain day, he has to wait until the next day for the return trip. There used to be two local trains, but the other was cancelled by the PNR management for some unknown reasons.

The regular Bicol Express night trains stop only in the poblacion of Tagkawayan, Ragay and Sipocot. The Day Book Express stops only in the poblacion of Tagkawayan, Del Gallego, Ragay, Lupi and Sipocot. The Mayon Limited and the Isarog (Continued on page 6)

earliest branches of the DBP in geographical center of trade and commerce, Cebu City, Iloilo City, Bacolod City in the Visayas; Davao City and Cagayan de Oro City in Mindanao; and Ilagan, Isabela, Sanatanon City, Naga City and Dagupan City in Luzon, were among the earliest sites of DBP branches. The growth of economic activities and investment build-up of the DBP in other areas was probably followed by the establishment of DBP branches in such areas. Thus in Luzon, another branch was opened in Legazpi; in the Visayas, branches were established in Roxas, Zamboanga, Tapanan City, and in Mindanao, Zamboanga City. Other branches were opened in Carabato City; Ozamiz City, Butuan City, Zamboanga City and General Santos, Cotabato.

When Gregorio S. Licaros took over as Chairman of the DBP in 1966, he attempted a fresh approach to the problem of expanding the branch network of the DBP. The traditional method of waiting for areas to grow until it was in a position to financially support the operations of a branch was too slow to suit the tempo of his program of accelerated development. He adopted the attitude that the DBP should be an active initiator of development.

This new concept either coincided with, or was pressed by, the active participation of the DBP in the development program of President Marcos' Administration. Under the national agricultural development program, the DBP, as the principal source of long-term loans in the country, is to make available its credit facilities to farmers in the rural areas. For the DBP, this meant the establishment of more branches or extension centers in areas where existing business concerns do not make operations of a normalized branch profitable. As in the past, the dilemma of service versus profit came to a head.

This issue was resolved by designing a new type of branch, the "compact" branch. The "compact" branch is similar to the regular branch in all respects except that it is leaner in personnel and is therefore cheaper to maintain but as effective as a regular branch in its lending operations.

The effectiveness of the "compact" branch was tested in Calapan, Oriental Mindoro where the first compact branch was opened in Calapan Branch. The operations returned both in terms of service and profit, the Board of Governors gave the nod to open more "compact" branches. Seven (7) new branches of this type were approved early in 1967 in the following places: Tuguegarao, (Continued on page 6)

New Trainees Join Regular Force

Malacanang was informed recently that 2,480 new trainee graduates will be retained in regular force for possible a significant in the military socio-economic program of the defense department.

Brig. Gen. Romeo Esplana, PA commanding general, reported that these trainees have been trained along military, socio-economic and vocational lines in various military camps and reservations throughout the country.

These trainees, in accordance with the provisions of the new Trainee, Utilization Law (R.A. 4091), will be enlisted in the massive socio-economic, education, engineering and other national development projects of the Philippine Army.

Earlier, 1,293 young recruits were selected to undergo field training with the First Infantry (Tabak) Division in Fort Magaysay, Nueva Ecija. This batch forms part of the 5,179 youths who will take the 6-month period training under the national defense law. They will compose the biggest group of recruits that have so far completed military and specialization training under the regular armed services.

The PA's trainee program, Espino said, also boosts the defense department's scheme of citizen-army build-up besides implementing the Trainee Law to its maximum and providing integrated and progressive development of skills among Filipino youths.

The utilization of trainee also brings about great economy on the part of the armed forces since the cost of maintaining one recruit is almost half the price of maintaining one regular.

U.S. Economist Suggests Flexible Approach to Development

Athens - A pragmatic, flexible approach to accelerate economic and social progress is suggested by Walter M. Kotschug, U. S; delegate to the U.N. international symposium on industrial development.

He noted a tendency in the economic and social agencies of the United Nations and other world bodies to formulate "ever-new sets of principles and a seemingly endless torrent of repetitive resolution."

He said these approaches, "however deserving of attention and respect, are not alone the answer."

He said what which approach and attitudes are best designed to set in motion and speed economic and social progress in developing countries and to help them achieve the state of self-sustaining growth which they are seeking," he said.

Rusk Praises Progress in Philippines, other Asian Nations

New York - "The remarkable" political and social progress in the Philippines and other non-communist countries in East Asia shows political stability and confidence in the future, says Secretary of State Rusk.

In the Philippines, Secretary Rusk said, "the Marcos administration is making noteworthy progress with a program concentrating on rice production and road building.

"New rice strains are coming into use. They were developed at the International Rice Research Institute at Los Banos, organized in 1960 by the Ford and Rockefeller Foundations in cooperation with the Government of the Philippines. These new strains, combined with new techniques, including proper use of fertilizers and pesticides, are increasing production dramatically.

"The Philippines has responded to the request for help from the Republic of Viet-Nam by sending a 2,000-man military engineering unit and other assistance."

already made in the extension of human rights to peoples of the world who have been denied these rights.

He said that it is his hope that human rights will continue to spread and take root "toward giving the fullest possible opportunities for the pursuit of happiness to all men."

The President's message follows:

"One of the foundation stones of civilization is the acceptance of human rights not only by sovereign governments but humanity as a whole; acceptance, not intellectual assent, but as a moral and spiritual conviction.

In the last few generations, the recognition of human rights as a basic element in human progress has gained wide currency, and through the United Nations, respect for human rights has become a ethic for many governments to live by, who perhaps in time will be able to enforce this respect with all the authority necessary.

The celebration of Human Rights Day today (Dec. 13) is both a reminder and an encouragement. We have, as a whole, made significant progress in enlarging the moral possibilities of our culture, through the hastening of the process of accumulation of experience in the validation and extension of human rights to every individual and community in the world.

It is my hope, as the Filipinos join this celebration, that respect for human rights as an attitude and way of life will continue to spread and take root toward giving the fullest possible opportunities for the pursuit of happiness to all men."

Some twenty-four ADN alumni have been ordained priests; fifteen are seculars, eight are Jesuits and one Benedictine. Fr. Vicencio Tison, HS'50, Alumni priests of pre-war ADN are Frs. Vicente Cornejo and Ramon Mores. First post-war alumnus to be ordained secular priest was Fr. Benjamin Almoneda, HS'50, present Rector of the Holy Rosary Minor Seminary. First ADN post-war alumnus to be ordained Jesuit priest was Fr. Juan Bonafé, HS'47, present HS. Student Counsellor at the Ateneo de Davao, Davao City. Fr. Andres Bolinas, HS'47 is present HS principal of the Ateneo de Naga. Still on studies abroad is Fr. Walter Isaac, S.J., valedictorian of HS'50. Just returned from the USA is Fr. Jesus Fernandez, HS'49, now teaching at the Loyola House of Studies. Most recently ordained is Fr. Selh Safo, HS'54, now assistant priest of Capalonga.

Land Reform Program

The Administration's land reform program will be expanded within the next two years. More land reform areas will be declared possibly to integrate the entire Central Luzon. The second district of Pangasinan was made a land reform area last year.

President Marcos made this disclosure in his speech before the Philippines Historical Association seminar last Nov. 29. He said that his administration can now concentrate more on land reform, because its programs on rice production and infrastructure like irrigation, road, schoolhouse and pier constructions, have been successfully launched.

The declaration of an area as a land reform area is the first phase among the steps taken in making tenants eventual owners of the lands they are tilling. The government will eventually buy big landholdings, which will be subdivided and resold to tenants under liberal terms of payment.

Cagayan; Baguio City; Tarlac; Tarlac; Daet, Camarines Norte, Puerto Princesa, Palawan, Kalibo, Alakan, and Dagupan City.

This is only the beginning. Chairman Licares is determined to open a DBP branch in every province to give full meaning to the policy of the DBP of rendering service to the entire country.

As of today, the DBP has an extensive network of branches and agencies. It has a total of 19 operating branches and 27 agencies. The conversion of existing agencies into branches and the approved establishment of a new one in Baguio City which are now being implemented will bring the total number of branches to 25 but will reduce the number of agencies to 22. These offices are distributed among the different regions: Luzon, 11 branches and 5 agencies; Visayas, 7 branches and 6 agencies; and Mindanao, 7 branches and 11 agencies.

Naga is one of the DBP's two branches in Bicol region. It started in 1955 with Mr. Augusto Taubanning serving as its first manager. Since that time, the following have served as Manager: Mr. Anatolio T. Viray, 1956, to 1959; Mr. Aselmo Alovera, 1960 to 1962; and the incumbent Mr. Augusto D. Alvarado, 1962 to present.

At the time it was opened in 1955, Naga Branch had an investment of P5.5 million spread over the entire Bicol area. Because the area it covered was too large for a branch to service, the provinces were taken off its territory and transferred to other branches which were subsequently opened.

Naga Branch serves Camarines Sur and Camarines Norte. The Branch maintains an agency office in Daet, Camarines Norte to accent the emphasis on service to its borrowers by bringing its facilities nearer to its clients in this area.

Within its area of operations, the Naga Branch offers the following banking services: Merit and long-term loans; agriculture, industry, real estate construction, low-cost homes, savings deposits; time deposits; administration of trust investment funds such as Coconut financing and the maintenance and servicing of Progress Bonds.

The Naga Branch can be considered as one of the principal investors in the local economy of the two provinces it serves. As of November 30, 1957, loan investments of the Branch amounted to P16,011,463.84 broken out into agricultural loans of P8,580,876.36 (53%); industrial loans of P4,411,240.35 (27%); and real estate (housing) loans of P3,019,347.13 (20%); or a total of P16,011,463.84.

Agricultural loans of the branch have been channeled principally into the production of the traditional major crops of the region. These are: Coconut, Palay and Abaca.

The Branch is trying to encourage farmers to diversify agricultural production through the planting of new crops that can be grown in the region. Aware that the success of any attempt to diversify farming will depend on educating farmers, educational drives are being conducted by agricultural experts of the Branch. Fiestas and meeting of farmers are taken advantage of by Branch personnel for campaigns of this sort.

While agriculture remains the primary area for the lending operations of the Branch, industrial growth is a primary concern. Naga Branch has been relatively successful in promoting industrialization. This may be gleaned from the fact that 27% of its portfolio is in industrial loans.

Rail-Skates . . .

Limited trains stop only in the poblacion of Sipocot.

These five "railroad" towns have a combined population of nearly 160,000. The area produces copra, abaca, palay, citrus, fish from fishponds, bananas, vegetables, poultry, cattle, minerals and even automobiles in complete quantities. When the Philippine National Railway trips are cut by landslides, floods, derailments or breakdown of engines and coaches, which are frequent, the people of this area are completely isolated. Products rot, the sick die for lack of medical attention and peace and order leak down.

In view of this urgent need to supplement the infrequent and unreliable service of the Phil. National Railway, necessity invented the "rail-skates". Of course, it is a dangerous means of transportation, but everybody, including government officials, would rather take a chance than do nothing at all. Even the Archbishop of Nueva Caceres did not hesitate to ride a "rail-skate" when it was used as a pastoral visitation to the Barrios of Ragay.

The order of General Manager Jimenez, to prohibit the use of "rail-skates" on the PNR railway line and to confiscate them will retard economic development, the DBP recently embarked on a nationwide program to tap savings through the sale of Progress Bonds.

Naga Branch is deeply involved in this program. Proceeds from bond sales are channeled to finance worthy agricultural and industrial projects within the Branch's territory.

The Branch is endeavoring to induce more and more people to take advantage of its credit facilities. The Branch is prepared to extend credit for projects in the agricultural sector that will either increase the productivity of existing farms, developed uncultivated agricultural lands, establish new industries or expand existing ones, and finance the construction of low-cost houses for the homeless.

To accomplish these goals, Mr. Augusto D. Alvarado, present Manager of Naga Branch, is mobilizing the entire Branch force consisting of 57 personnel to operation of a program of project promotions. Farmers, producers, entrepreneurs in Camarines Sur and Camarines Norte - in short, all those who need long-term financial assistance as well as technical help from the DBP, are being encouraged to consult the DBP Naga Branch.

Preponderance of Fragmentation

(Second of a Series)

Editor's Note: In the preceding installment the writer discussed the implications particularly on the political aspect on the current issue prevailing on the reported 'partitioning' of the province of Camarines Sur; discussions of which being timely should ensue and follow the trend of awareness and vigilance which is indispensable to democratic growth.

The Angury of a Bright Future. The incoming provincial administration from the governor-elect Manding Cledera and his entourage of provincial board members are as a whole a competent group of neophyte politicians whose assumption into office beginning January 1 deserves the commendation of the people whose desire for change had unalterably voted a straight Nacionalista administration - a stretch of four (4) long duration years from 1968 up to 1971.

The mandate of the electorate being on the landslide scale give credence to the pragmatic essence of natural consequences as useful results of ideas in a process giving validity to truth itself thus the rising tide of new elite generation seeking the favor of public office anchored on the incentive of hard work and more on the political exigency to cultivate and win the people's esteem thru performance.

The governor-elect Manding Cledera for his part is a seemingly colorful vintage of a man possessing both the willpower and the give-and-take hard-core attributes to lead the people. In this regard it is expected then of the other members of the provincial board not only to coordinate and cooperate but to impart for the duration of their tenure while in office the best that could be had by way of exemplary deeds and if need be to rise above the considerations of self-aggrandizement.

Project Study and the welfare Program. Even as the last election promises have long been stilled - the people's welfare should not escape meticulous attention. The small fries or low-salaried employees in the varied government (provincial) services in order to make both ends for body and soul meet affected harshly by the ever rising prices of prime commodities - should be tended to with a gradual salary and wage increases as the essentials of financing will warrant. After all it is the small fries who toil day in and day out the uneasy monotony of the day's labor.

The growing communities in the rural areas should have the long-sought fever roads, those lame and dangerous concrete and outdated wooden bridges should be replaced by concrete culverts and cemented bridges in order to minimize the year-long repairs which by nature cut-out the bulk of maintenance and repair outlay. Good feeder roads and as much as good bridges are necessary adjuncts to the maintenance of commerce. Given the proper focus and initiative - the rural areas will thrive in material abundance.

The school building program, too, now that pre-fabricated units are adequately available should replace those dilapidated school nipa and bamboo shanties that had borne the brunt of the typhoons and in line with the rice proficiency program hundreds of unirrigated fields can be extended the advantages of irrigation by developing more irrigated areas into productive zones.

Board Member Emilio Tible Jr. Speaks. As almost anyone should know Board Member Emilio Tible is a bona fide protégé of Congressman Felix Fuentebella and who steadfastly utilized the weight and influence to insure Tible's victory in the NP convention. But as events did turn out the delegates by a twist of sympathy and fate voted a majority for Manding Cledera's nomination in the third and final balloting.

Relevant to the burning issue that may crop up on the heels of the reported move of Congressman Fuentebella to 'partition' Camarines Sur into three (3) provinces- Board Member Tible as reported in a local weekly (not this) made known his stand against the political fragmentation of this premier province.

Certainly no right thinking member of the new provincial board should ever sign his own passport to exile in the future diminutive province of New Camarines Sur eminently bordering the mining province of Camarines Norte.

For making bold his stand against the political 'fragmentation' of this premier province- Board Member Emilio Tible Jr. deserves this famous accolade by Emma Lazarus - Inscription on the Statue of Liberty at New York Harbor -

Give me your tired, your young,
Your huddled masses yearning
to brighter free,
The wretched refuse of your
teeming shore.
Send these, the homeless,
tempest tossed to me:
I lift my lamp beside the
golden door.
