THE PRESIDENT'S SPECIAL MESSAGE

MALACAÑAN PALACE MANILA

June 23, 1936

GENTLEMEN OF THE NATIONAL ASSEMBLY:

In pursuance of section 9, paragraph (1), of Article VI of the Constitution of the Philippines, I am submitting herewith for your consideration the Budget of receipts and expenditures of the Government of the Commonwealth for the year 1937. The Constitution allows the President fifteen days from the date of the opening of the regular session of the National Assembly within which to submit the Budget, and although the opening date of this year's regular session has been advanced thirty days, I have, nevertheless, endeavored to have this Budget ready within the first few days after the opening of the session to make possible your early enactment of the General Appropriation Law.

This Budget has been prepared by the Budget Commission, the office newly created by me and to which I referred in my previous message to the National Assembly.

The Chairman of this Commission and Director of the Budget is Hon. Serafin Marabut, former Chairman of the Committee on Appropriations of the National Assembly, who has, for many years, rendered efficient and patriotic service in the Committee on Appropriations of the House of Representatives.

A new and important duty imposed upon the Budget Office, as created under Executive Order No. 25, is the close and constant supervision over the expenditures made by the different executive departments, bureaus and dependencies of the National Government, and for this purpose, their respective accounting services have been placed under the direct control of the Director of the Budget. In this manner, the expenditure of funds, although authorized by law, if found not actually necessary, may be suspended by the President, thus enabling him to prevent waste and extravagance.

The total regular income for 1937, conservatively estimated, is ₱65,817,400. The revised estimated regular income for the current year is ₱66,133,900.

The total ordinary expenditures proposed for 1937 amount to ₱64,767,138, which, compared with the estimated regular income for 1937, leaves a surplus of ₱1,050,262.

The total ordinary expenditures proposed in the Budget is ₱35,031.50 more than the total ordinary expenditures authorized for 1936. However, the 1937 Budget contains increases in appropriations aggregating ₱1,618,732.15 for improvement and extension of such essential public services as revenue collection, health social welfare and others; and eliminates and/or reduces certain expenditures authorized for 1936 which have been found either excessive or no longer necessary. The appropriations which have been increased are those affecting the Bureaus of Internal Revenue, Customs and Forestry, which have been unable in the past to collect all the taxes due the Government for lack of adequate personnel, and about ₱330,500 of said increases is for the care of the insane and the sick and for the free distribution of medicine among the poor.

In addition to the ordinary expenditures above referred to, there are extraordinary outlays and investments included in the Budget amounting to ₱1,440,800 which are charged against the accumulated surplus.

There are a number of important changes effected in the present Budget, as compared with the last one, both as regards the organization of the Bureaus and the mat-

ters contained in the Budget. The reorganizations were effected by Executive Order in accordance with Commonwealth Act No. 5, and they are:

- (1) the creation of the Budget Commission;
- (2) the transfer of the Navigation Division from the Department of Agriculture and Commerce to the Bureau of Customs; and
- (3) the reorganization of the Bureau of Civil Service.

The creation of the Budget Commission has been discussed in my first message to the Assembly at this regular session; the transfer of the Navigation Division from the Department of Agriculture and Commerce to the Bureau of Customs has been done in the interest of economy and efficiency, and the reorganization of the Bureau of Civil Service is in line with, and designed to give full force and effect to, the provisions contained in Article XI of the Constitution referring to Civil Service.

Heretofore, the Bureau of Civil Service has been ranked among the bureaus of the second class and its functions have been limited to giving civil service examinations, rating of papers, and passing upon questions of eligibility of qualified applicants for Government positions or the promotion of employees already in the service. I have created a Civil Service Board of Appeals composed of the Auditor General, as Chairman, and the Solicitor General and the Director of the Budget, as members, and have raised the position of Director of Civil Service to that of Commissioner of Civil Service with a salary equal to that of an Undersecretary of Department, and that of his Assistant to Deputy Commissioner with the salary of an Assistant Director of a first-class Bureau. Under this reorganization, the Bureau of Civil Service, in addition to its existing duties, will have charge of, and pass upon all formal investigations against officers and employees of the Civil Service. Experience has demonstrated that sometimes the *esprit de corps* in a given bureau is so strong that complaints presented by private parties against employees of the Bureau do not receive due consideration; on the other hand, there are cases where for personal, political or other reasons, employees are not properly protected in their rights. The Bureau of Civil Service, as reorganized, will safeguard equally the rights of the public and of the employees. It will function as an administrative tribunal, acting as independently as the Courts of Justice. Appeals from the decision of the Commissioner of Civil Service may be taken to the Civil Service Board of Appeals, whose decision thereon will be final.

It will also be noted that the Budget for 1937 includes appropriations which are payable from special funds created by the Legislature for certain purposes and which, without further action on the part of the legislative department, are being spent by the executive offices vested by law with their administration. Heretofore, these special funds have not been included in the Budget supposedly for the reason that a yearly legislative action on the same was not deemed necessary. I believe, however, that the inclusion of these special funds in the Budget, as I am now doing, makes our budgetary system more comprehensive and is a forward step towards making the Budget the complete financial program of the Government that it should be.

The appropriations for the Bureau of Printing and the Industrial Division of the Bureau of Prisons are being placed on revolving fund basis. The resulting elasticity in the working capital of each of these two industrial units will enable them, not only to function more economically and efficiently, but to adjust their operation to the varying requirements of the service.

It is my purpose to recommend, as I do hereby recommend, the repeal of Act No. 3431, otherwise known as the Belo Act, effective on the first of January, 1938.

During these first two years of the life of the Commonwealth, I feel that the President should have at his disposal the amount appropriated by the said Act and should have, in the use of the fund, the latitude given him by the law, so that he may be able to exercise supervision and control, not only over the affairs of the National Government, but of the provinces and municipalities as well. These are years of investigation and reorganization of the whole government machinery and the Chief Executive should have all the assistance demanded by the multitude and extent of the questions that require his immediate attention until general administrative policies and procedures are established. To the Belo Fund, I have resorted also to give the Executive Departments additional personnel for technical work. Were it not for the above considerations, I should have recommended the immediate repeal of that Act.

I wish also to bring to your attention the marked change in the form of presenting the General Comparative Statement and the different kinds of expenditures in the Budget. In the General Comparative Statement, the expenditures are segregated into ordinary expenditures, and extraordinary expenditures and investments, and the allocation of the net surplus is shown in detail. The financial condition of the Government is thus clearly presented. While in the budgets of previous years the permanent appropriations, continuing appropriations, indefinite appropriations and expenditures payable from receipts and revolving funds were scattered in subsidiary statements, in the Budget which I am submitting to you, they are conspicuously placed in tabulated form together with the general appropriations. Thus, anyone can see at a glance the amount of funds for expenditure at the disposal of each department of the Government.

At the end of 1935, the net accumulated surplus of the Commonwealth Government of the Philippines was ₱39,565,495.59. Of this amount and the current surplus of ₱1,401,793.51 for the year 1936, the sum of ₱2,937,233.30 was used to cover a portion of the amount appropriated by the former Philippine Legislature for public works; ₱990,000 for construction of roads in Mindanao; ₱388,000 for the election of the Commonwealth officials, and ₱3,361,597.38 for other extraordinary expenses. In its inaugural session, the National Assembly authorized appropriations amounting to ₱500,000 for various purposes, including outlays for the expenses of the National Economic Council and of the Government Survey Board, extermination of locusts and budrot, and typhoon relief. The Chief Executive, on the other hand, has authorized the investment of ₱1,000,000 in stock of the National Development Company for use of the National Rice and Corn Corporation, in pursuance of the provisions of Act No. 2849, and ₱300,000 in stock of the Manila Railroad Company for the extension of its southern lines, as authorized under Act No. 3116. As a result of the extraordinary appropriations and investments above mentioned, the accumulated net surplus of the Government of the Commonwealth at the end of 1936 will be ₱31,490,458.41. With the exception of about ₱5,000,000, which represents supplies on hand, accounts receivable and other forms of liquid assets, the said accumulated net surplus is all in cash, of which ₱9,090,458.41 is unencumbered. It is needless to state that, except for some urgent and vital public need, further drain upon the accumulated surplus would not be advisable. Any measure, involving the expenditure of public funds should be supplemented by the enactment of laws creating new sources of revenue or increasing those already in effect.

Very respectfully,

President of the Philippines

The NATIONAL ASSEMBLY
Manila

MENSAJE ESPECIAL DEL PRESIDENTE

MALACAÑAN PALACE

MANILA

23 de junio de 1936

CABALLEROS DE LA ASAMBLEA NACIONAL:

De conformidad con las disposiciones del artículo 9, párrafo (1), Título VI, de la Constitución de Filipinas, tengo el honor de someter a vuestra consideración el adjunto plan presupuestal del Gobierno del Commonwealth de Filipinas para el año 1937. La Constitución concede al Presidente de Filipinas un plazo de quince días a contar desde la apertura de cada período ordinario de sesiones de la Asamblea Nacional, para someter dentro de dicho plazo, el presupuesto de ingresos y gastos, y aunque la fecha de la apertura del período ordinario de sesiones de este año ha sido anticipada en treinta días, he procurado, no obstante, tener listo el adjunto plan presupuestal dentro de los primeros días después de la apertura de vuestras sesiones para hacer posible la pronta aprobación de la Ley de Presupuestos Generales.

Este plan presupuestal ha sido preparado por la Comisión del Budget, la Oficina recientemente creada por mí de la cual ya he hablado a la Asamblea Nacional en mi mensaje anterior.

El Presidente de esta Comisión y Director del Budget es el Honorable Serafín Marabut, anterior Presidente del Comité de Presupuestos de la Asamblea Nacional, quien, por muchos años, ha prestado eficientes y patrióticos servicios en el Comité de Presupuestos de la Cámara de Representantes.

La supervisión estricta y constante sobre los gastos de los diversos departamentos ejecutivos, oficinas y dependencias del Gobierno Nacional, es un nuevo e importante deber impuesto a la Oficina del Budget, creada mediante la Orden Ejecutiva No. 25, y para su cumplimiento, las respectivas secciones de contabilidad de dichas organizaciones del Gobierno fueron colocadas bajo el control directo del Director del Budget. Por este medio, si algún gasto fuere hallado innecesario, puede, aunque hubiera sido autorizado por ley, ser suspendido por el Presidente, capacitándole de este modo a impedir pérdidas y extravagancias.

El total de ingresos ordinarios para el año 1937 se calcula conservativamente en la suma de ₱65,817,400. Los ingresos calculados según la última revisión para el año actual son ₱66,133,900.

El total de gastos ordinarios que se propone para el año 1937 asciende a la suma de ₱64,767,138, la cual, comparada con los ingresos ordinarios calculados para 1937, resulta un superávit de ₱1,050,262.

El total de gastos ordinarios que se propone en el adjunto plan presupuestal es ₱35,031.50 más que el total de gastos ordinarios autorizados para 1936. Sin embargo, el plan presupuestal de 1937 contiene aumentos en las consignaciones que suman ₱1,618,732.15 para el mejoramiento y extensión de servicios públicos importantes, tales como la recaudación de rentas, sanidad, bienestar social, y otros; y elimina y/o reduce ciertos gastos autorizados para 1936 que han sido hallados excesivos o han dejado de ser necesarios. Las consignaciones que han sido aumentadas son aquellas que afectan las Oficinas de Rentas Internas, de Aduanas y de Montes, las cuales no pudieron recaudar en años anteriores todos los impuestos debidos al Gobierno por falta de personal adecuado, y unos ₱330,500 de dichos aumentos son para el cuidado de personas dementes y enfermas y para la distribución gratuita de medicinas entre los pobres.

Además de los gastos ordinarios arriba referidos, hay gastos extraordinarios e inversiones incluidos en el plan presupuestal que ascienden a ₱1,440,800 con cargo contra el superávit acumulado.

Se han introducido varios cambios importantes en el actual plan presupuestal en comparación con el anterior tanto en lo que respecta a la organización de las Oficinas

como en lo que se refiere al contenido mismo del plan presupuestal. Las reorganizaciones se efectuaron por Orden Ejecutiva de acuerdo con la Ley No. 5 del Commonwealth y son:

- (1) la creación de la Comisión del Budget;
- (2) el traslado de la División de Navegación del Departamento de Agricultura y Comercio a la Oficina de Aduanas; y
- (3) la reorganización de la Oficina del Servicio Civil.

La creación de la Comisión del Budget ha sido ya comentada en mi primer mensaje a la Asamblea en este período ordinario de sesiones; el traslado de la División de Navegación del Departamento de Agricultura y Comercio a la Oficina de Aduanas se ha hecho en interés de la economía y eficiencia, y la reorganización de la Oficina del Servicio Civil se ha hecho de acuerdo con las disposiciones contenidas en el Artículo XI de la Constitución referentes al Servicio Civil designada a dar fuerza y efecto a tales disposiciones.

En el pasado, la Oficina del Servicio Civil estaba colocada entre las oficinas de segunda clase y sus funciones se limitaban a dar exámenes del Servicio Civil, apreciar las composiciones de examen y resolver cuestiones sobre elegibilidad de solicitantes calificados para ocupar puestos en el Gobierno, o el ascenso de empleados dentro del servicio. He creado una Junta de Apelaciones del Servicio Civil compuesta del Auditor General como presidente, el Procurador General y el Director del Budget como miembros y elevado el puesto de Director del Servicio Civil al de Comisionado del Servicio Civil con un sueldo igual al de un Subsecretario Departamental y el de Director Auxiliar, al de Delegado Comisionado con el sueldo de un Director Auxiliar de oficina de primera clase. Bajo esta reorganización, la Oficina del Servicio Civil, además de sus deberes anteriores, se encargará de, y decidirá todas las investigaciones contra oficiales y empleados del Servicio Civil.

La experiencia ha demostrado que en algunas ocasiones el espíritu de cuerpo de una oficina es tan fuerte que las quejas presentadas por particulares contra empleados de dicha oficina no reciben la consideración debida; y por otra parte, hay casos en que por razones personales, políticas o de otra naturaleza, los derechos de los empleados no reciben adecuada protección. La Oficina del Servicio Civil, como está reorganizada, velará igualmente por los derechos tanto del público como del empleado. Funcionará como un tribunal administrativo obrando con igual independencia que los Tribunales de Justicia. Las decisiones del Comisionado del Servicio Civil serán apelables ante la Junta de Apelaciones del Servicio Civil cuya decisión será definitiva.

Podréis notar también que el plan presupuestal para 1937 incluy consignaciones que son pagaderas de fondos especiales creados por la Legislatura para ciertos fines y que sin ulterior acción de parte del Departamento Legislativo, se gastan por las oficinas ejecutivas encargadas por la ley de su administración. En el pasado, estos fondos especiales no se incluían en el plan presupuestal por razón quizás de que no era necesario que se tomara acción legislativa sobre ellos anualmente. Creo, sin embargo, que la inclusión de estos fondos especiales en el plan presupuestal, como lo hago ahora, hace más comprensivo nuestro sistema budgetario y es un avance para realizar que el budget sea completamente el programa financiero del Gobierno como debe ser.

Las consignaciones para la Oficina de la Imprenta y de la División Industrial de la Oficina de Prisiones se han puesto sobre la base de fondos reembolsables. La elasticidad resultante en sus fondos de funcionamiento respectivos permitirá a estas actividades industriales del Gobierno no solamente funcionar económica y eficientemente sino también ajustar su operación a las diversas necesidades del servicio.

Es mi propósito recomendar, como por la presente recomiendo, la abolición de la Ley No. 3431, comúnmente conocida por Ley Belo, con efectividad el primer día de enero de 1938.

Soy de opinión de que durante estos primeros dos años de la existencia del Commonwealth, el Presidente debe tener a su disposición la cantidad apropiada en dicha ley así como también la discreción en ella concedida en lo que respecta al empleo de este fondo de tal modo que pueda ejercer supervisión y control no solamente sobre los asuntos del Gobierno Nacional sino también los de las provincias y municipios. Estos años son de investigación y de reorganización de toda la maquinaria gubernativa y el Jefe Ejecutivo debe tener toda la ayuda requerida por el número y la importancia de las cuestiones que solicita su atención inmediata hasta que se hayan establecido sistemas y procedimientos administrativos de carácter general. He recurrido a los fondos Belo para proporcionar personal adicional para trabajos técnicos a los Departamentos Ejecutivos. A no ser por las anteriores consideraciones, yo hubiera recomendado la inmediata derogación de dicha ley.

Deseo también llamar vuestra atención al marcado cambio en la forma en que se presenta el Estado General Comparativo y las diferentes clases de gastos en el adjunto plan presupuestal. En el estado comparativo, los gastos se dividen en ordinarios y extraordinarios incluyendo inversiones y se muestra detalladamente el destino del superávit neto. Con esta forma de presentación, la condición financiera del Gobierno queda claramente descrita. Mientras en los planes presupuestales de años anteriores las consignaciones permanentes, las que se llevan de año en año, las que tienen carácter indefinido y los gastos que se pagan directamente de los ingresos y de fondos reembolsables aparecían desparramadas en estados subsidiarios, en el adjunto plan presupuestal aparecen claramente en cuadros a continuación de las consignaciones ordinarias. Por este medio, cualquiera puede a simple vista saber las cantidades consignadas para los gastos de cada Departamento del Gobierno.

A fines del año 1935, el superávit neto acumulado del Gobierno del Commonwealth de Filipinas montaba a ₱39,565,495.59. De esta suma y del superávit actual de ₱1,401,793.51 para el año 1936, la suma de ₱2,937,233.30 fué usada para cubrir una parte de la apropiación de la fenecida Legislatura Filipina para obras públicas; ₱990,000 para la construcción de caminos en Mindanao; ₱388,000 para las elecciones de los funcionarios del Commonwealth, y ₱3,361,597.38 para otros gastos extraordinarios. La Asamblea Nacional, en sus sesiones inaugurales, autorizó consignaciones montantes a ₱500,000 para varios fines, incluyendo los gastos del Consejo Económico Nacional y de la Junta de Investigación del Gobierno, extirpación de langostas y *budrot*, y socorro por causa de tifones. El Jefe Ejecutivo, por otro lado, obrando de acuerdo con las disposiciones de la Ley No. 2849, ha autorizado la inversión de ₱1,000,000 en acciones de la Compañía de Fomento Nacional para el uso de la Corporación Nacional de Arroz y Maíz, y ₱300,000, en acciones de la Manila Railroad Company para la extensión de sus líneas del Sur, como quedó autorizada bajo la Ley No. 3116. Como resultado de las consignaciones extraordinarias e inversiones arriba mencionadas, el superávit neto acumulado del Gobierno del Commonwealth al fin del año 1936 será ₱31,490,458.41. Con excepción de cerca de ₱5,000,000, que representan efectos y materiales en existencia, cuentas por cobrar y otras formas de activo líquido, dicho superávit consiste todo en efectivo del cual ₱9,090,458.41 está libre de gravamen. Es innecesario decir que, con excepción de gastos para urgentes y vitales necesidades públicas, cualquier merma posterior de nuestro superávit neto acumulado no es aconsejable y, por lo tanto, todas las medidas que envuelvan desembolso de fondos públicos deben ser suplementadas por leyes que creen nuevas fuentes de ingresos o aumenten el rendimiento de las ya existentes.

Muy respetuosamente,

MANUEL L. QUEZON
Presidente de Filipinas

AA.—NATIONAL LIBRARY

For the next fiscal year, the sum of ₱155,735 is requested. This amount is ₱3,793.40 more than that authorized in 1936. This increase is due to a new appropriation of ₱5,000 to defray the expenses for collecting, classifying and preserving genuine Filipino folklore, legends, traditions, myths, songs, pictures, sculptures and such other historical and ethnographical materials and objects to meet the requirements of section 1689 (f) of Act No. 2711. However, this increase is partly offset by a reduction of ₱1,207 in certain items under sundry expenses.

Para el año venidero, la suma de ₱155,735 se pide con destino a la Biblioteca Nacional. Dicha suma es ₱3,793.40 mayor que la autorizada para el presente año. Este aumento se debe a la nueva consignación de ₱5,000 para sufragar los gastos de la colección, clasificación y conservación de escritos sobre creencias y costumbres, leyendas, tradiciones, fábulas, cantos, cuadros y esculturas genuinamente filipinos y otros materiales y objetos históricos y etnográficos, con el fin de llenar los fines del Artículo 1689 (f) de la Ley No. 2711. Sin embargo, dicho aumento está parcialmente compensado por la reducción de ₱1,207 en ciertas partidas para gastos varios.

C.—BUREAUS AND OFFICES UNDER THE DIRECT CONTROL OF THE PRESIDENT

For the ensuing year 1937, the total amount of the appropriation requested for the Bureaus and Offices under the direct control of the President is ₱1,378,530, as compared with the amount of ₱1,403,090 authorized for the current year, or a decrease of ₱24,560.

Eight new positions are proposed for the Bureau of Civil Service for next year, namely, seven chiefs of sections and a property officer. These new positions are necessary to enable the Bureau to cope properly with the requirements of the Constitution. A position of an assistant chief of section in the General Auditing Office is also included. The nine new positions, together with urgently needed increases in salaries of a few important positions, involve an additional outlay of ₱27,885. This increase, however, is wholly covered by savings made on account of the suppression of one item for additional salary and the reduction of others due to retirements of their previous incumbents, of the reductions in sundry expenses, and the conversion of the items for the expenses of the Boards of Examiners into expenditure payable directly from the receipts.

Para el año venidero, la consignación total de ₱1,378,530 se pide para las Oficinas bajo el control directo del Presidente cuya suma, comparada con la de ₱1,403,090 autorizada para el presente año, arroja una disminución de ₱24,560.

Se propone la creación de ocho nuevos puestos para la Oficina del Servicio Civil para el año entrante, los cuales se destinan para siete jefes de secciones y un encargado de propiedades. Estos nuevos puestos se consideran necesarios para capacitar a la Oficina a cumplir debidamente con los preceptos de la Constitución. Un puesto de jefe auxiliar de sección ha sido también propuesto para la Oficina de la Auditoría General. Estos nueve puestos, juntamente con los aumentos necesarios en sueldos de algunos cargos importantes, envuelven un gasto adicional de ₱27,885. Este aumento, sin embargo, está cubierto en parte por los ahorros obtenidos de la supresión de una partida que cubre un sueldo adicional, la reducción de sueldos para puestos cuyos ocupantes fueron retirados, reducciones en gastos varios, y la conversión de las partidas para los gastos de las Juntas Examinadoras en gastos pagaderos directamente de los ingresos.

CC.—PHILIPPINE ARMY

The appropriation requested for the year 1937 is ₱15,955,972, excluding the amount of ₱44,028 set aside for the expenses of the accounting office for the Philippine Army, as against ₱15,952,503 authorized for the current year, or an increase of ₱3,469.

Increases aggregating ₱5,495,837 have been made in the appropriations for (1) pay, clothing allowance and commutation of quarters of the enlisted men, commissioned officers, cadets and trainees of the regular and reserve forces and the clothing allowance of persons undergoing preparatory military training, (2) subsistence of the regular force and trainees, (3) hospitalization, training and education of the Reserve Officers' Training Corps, (4) transportation of trainees and upkeep and operation of watercraft, (5) quartermaster and air corps equipment and supplies, and (6) construction of mobilization and training centers. This increase, however, is partly offset by the reductions and suppressions of appropriations for (1) base pay of the commissioned officers of the regular force, pay and allowance of the cadets at the Philippine Military Academy and other expenses of the Academy, (2) reënlistment bonus, (3) supplies for upkeep and operation of motor vehicles, (4) purchase of armament, medical equipment and supplies, (5) expense for the construction of land and sea defenses, barracks quarters and ordnance and engineer establishments, (6) continuing expenses of the National Defense Mission, (7) subsistence of reservists on annual active duty, (8) field exercises and active duty training of the regular and reserve forces, and (9) transportation of reservists in connection with regular annual active duty training and purchase of animals for the regular and reserve forces.

Para el año de 1937, se pide la consignación de ₱15,955,972, excluyendo la cantidad de ₱44,028 apropiada para los gastos de la oficina de cuentas para el Ejército de Filipinas, contra ₱15,952,503 autorizada para el presente año, o un aumento de ₱3,469.

Los aumentos que suman ₱5,495,837 se han hecho en las consignaciones para (1) paga, gratificación de vestuario y conmutación de alojamiento de los individuos de tropa, oficiales, cadetes e individuos de fuerzas regulares y de reserva que reciben instrucción de primera situación de servicio activo, y gratificación de vestuario de las personas que están recibiendo instrucción militar preparatoria, (2) subsistencia de la Fuerza Regular y de individuos que reciben instrucción de primera situación de servicio activo, (3) hospitalización, instrucción y educación del Cuerpo de Adiestramiento de Oficiales de Reserva, (4) transporte de individuos que reciben instrucción de primera situación de servicio activo, y manutención y funcionamiento de medios de transporte marítimo, (5) suministros y equipos de administración militar y del Cuerpo de Aviación, y (6) construcción de centros de movilización y centros de instrucción. Este aumento, sin embargo, queda en parte compensado por la reducción y supresión de las consignaciones para (1) paga básica de Oficiales de la Fuerza Regular, paga y gratificaciones de cadetes en la Academia Militar de Filipinas y otros gastos de la Academia, (2) bonificación de reenganche, (3) suministros para la manutención y funcionamiento de vehículos de motor, (4) compra de armamento, suministros y equipos médicos, (5) gastos para la construcción de defensa terrestre y marítima, cuarteles y alojamientos, y para establecimientos de ingenieros y de maestranza, (6) gastos continuos de la Misión de Defensa Nacional, (7) subsistencia de reservistas en servicio activo anual, (8) ejercicios de campaña e instrucción de servicio activo de las Fuerzas Regulares y de Reserva, y (9) transporte de reservistas en relación con su instrucción reglamentaria anual de servicio activo, y compra de ganado de las Fuerzas Regulares y de Reserva.

D.—DEPARTMENT OF THE INTERIOR

For next year, the amount requested for this Department is ₱637,056 which is ₱95,930 less than that authorized for 1936. This decrease is due to the following causes: reduction by ₱60,000 of the aid of the National Government now given to the City of Baguio; transfer to the Supreme Court of the appropriation of ₱36,000 for the rental of the Ayuntamiento Building; reduction by ₱480 of the appropriation for pensions authorized under Acts 2756 and 2922; and the elimination of the appropriation of ₱2,000 for "traveling expenses of persons not government employees." On the other hand, there have been included in the appropriation for this Department two items of expenditure involving an increase of ₱2,550: the first is the restoration of the former salary of the chief, records division, Office of the Secretary, from ₱3,400 to ₱4,250, or an increase of ₱850, and the second is the insertion of an item covering the unpaid additional salary of the same official for the years 1935 and 1936.

Para el próximo año, la cantidad pedida para este Departamento es ₱637,056, que es ₱95,930 menos que la autorizada para 1936. Esta disminución se debe a las siguientes causas: reducción de ₱60,000 en la ayuda que el Gobierno Nacional da a la Ciudad de Baguio; transferencia a la Corte Suprema de la consignación de ₱36,000 para el alquiler del Ayuntamiento; reducción de ₱480 de la consignación para las pensiones autorizadas por las Leyes Nos. 2756 y 2922; y la eliminación de la consignación de ₱2,000 para "gastos de viaje de individuos no empleados del gobierno." Por otra parte, se han incluido en las consignaciones para este Departamento dos partidas de gastos que envuelven un aumento total de ₱2,550: la primera es la restauración del sueldo anterior del jefe de archivos de la Oficina del Secretario de ₱3,400 a ₱4,250, o un aumento de ₱850; y la segunda es la inserción de una partida que cubre el sueldo adicional no pagado al mismo oficial para los años de 1935 y 1936.

E.—DEPARTMENT OF FINANCE

For the year 1937, the sum of ₱2,987,244 is requested for the bureaus and offices under this Department, as against ₱3,403,660.60 authorized for the current year, making a net decrease of ₱416,416.60. This decrease has been accomplished in spite of the substantial increases that are given in the appropriations for the Bureaus of Internal Revenue, Customs and Treasury by the elimination of the appropriation for the Bureau of Printing, which has been placed on a revolving fund basis, and the reduction of items of appropriations which were found excessive. The increase in the personnel of the Bureaus of Internal Revenue and Customs is expected to result in increased collection of the government revenues.

Para el año 1937, la suma de ₱2,987,244 se pide para las Oficinas bajo este Departamento contra la suma de ₱3,403,660.60 autorizada para el presente año, resultando una disminución neta de ₱416,416.60. Esta disminución se ha obtenido, a pesar de los aumentos que se dieron a las consignaciones para las Oficinas de Rentas Internas, Aduanas y Tesorería, por la eliminación de la consignación para la Oficina de la Imprenta, que fué colocada sobre la base de fondos reembolsables, y por la reducción de partidas en las consignaciones que se han encontrado excesivas. Se espera que el aumento de personal en las Oficinas de Rentas Internas y Aduanas dará por resultado el aumento en la recaudación de las rentas del Gobierno.

X.—SPECIAL PROVISIONS

1. The charges for service rendered in connection with the landing and transportation of immigrants' baggage from ships to the Customs office shall be fixed by the Insular Collector of Customs with the approval of the Secretary of Finance.

2. Any saving of the appropriations for the Bureau of Internal Revenue for 1937 [1936] may be used for the payment during the said year of additional compensation of ten per centum of the salary of officers and employees of the Bureau of Internal Revenue who have demonstrated proficiency in the examination of books of accounts in a language other than English, Spanish or Philippine dialects for internal-revenue tax purposes, of merchants engaged in business in the *Philippines* [Philippine Islands]: PROVIDED, That the granting of the said additional compensation shall be made by the Secretary of Finance upon the recommendation of the Collector of Internal Revenue.

[3. The Secretary of Finance is hereby authorized to enter into a contract with a private corporation, in behalf of the Government of the Commonwealth of the Philippines, for the furnishing of electric fluid to the Commonwealth Government and its dependencies, and to the Government of the City of Manila and its dependencies, the latter by special contract with the Commonwealth Government, with the following conditions:

First. That the said private corporation shall install and establish a hydroelectric plant producing twice as much electric fluid as that consumed at present by both governments and their dependencies;

Second. That the price of the electric fluid supplied by the said corporation shall not exceed that paid at present by the Government of the Commonwealth of the Philippines and the Government of the City of Manila to the Manila Electric Company and that the conditions of the new contract shall be at least as favorable to the Government as those contained in the present contracts between the said government and the Manila Electric Company;

Third. That upon the expiration of 25 years from the date on which the Government of the Commonwealth of the Philippines will begin using the electric fluid furnished by the said private corporation, the hydroelectric plant thereof with all its dependencies, machineries, fixtures, apparatus, equipment, supplies and other properties shall become the exclusive property of the Government of the Commonwealth of the Philippines without consideration or payment of any kind to the private company owning the same: PROVIDED, That the Government of the Commonwealth of the Philippines, during the existence of the contract with the said private corporation, binds itself to use a quantity of electric fluid not less than that consumed at present by the Government of the Commonwealth of the Philippines and the Government of the City of Manila: PROVIDED, FURTHER, That if for the purpose of economy or on account of the re-organization of the Commonwealth Government the quan-

tity of electric fluid used annually by the Commonwealth Government and the Government of the City of Manila becomes less than that used by said Governments during the year 1931, the time for the final transfer of ownership over the private hydroelectric plant supplying the same shall be extended proportionately, based upon the difference between the electric fluid consumption in the future and the consumption in 1931: AND PROVIDED, FURTHER, That the said private corporation reserves the right to dispose of the excess electric fluid by separate contracts with persons residing outside of the City of Manila.]

3. [4] Subject to the approval of the Secretary of Finance, the Insular Collector of Customs may authorize the janitor assigned in the detention station at Engineer Island to lodge free of charge in said station while required to live therein.

4. [5] In the appointment of the employees receiving salaries from items 120 to 130, inclusive, of the Bureau of Internal Revenue, preference shall be given to duly qualified natives, if any.

5. *A reimbursable fund which shall be known as "Bureau of Printing Revolving Fund" is hereby created for the operation and maintenance of the Bureau of Printing. Upon the taking effect of this Act, all the assets and liabilities of the Bureau of Printing and the sum of ₱325,000, as working capital, which is hereby appropriated out of the accumulated surplus of the General Fund, shall be transferred to this fund. The working capital herein provided, together with all its future accretions from the operating income of the Bureau of Printing, shall be disbursed by the Director of Printing with the approval of the Secretary of Finance for the operation and maintenance of said Bureau, including the purchase of the necessary equipment when authorized by the Secretary of Finance: PROVIDED, That, as soon as possible, after the close of each fiscal year, the Director of Printing shall render a detailed financial report of the operation of this fund during said year to the President of the Philippines and the National Assembly, through the Secretary of Finance: PROVIDED, FURTHER, That any surplus fund which, in the opinion of the Budget Commission, is not necessary for the operation of said service shall revert to the general fund in the Insular Treasury, and: PROVIDED, FINALLY, That all permanent positions of personnel shall be shown in detail in the annual Appropriation Acts.*

6. *With the approval of the Secretary of Finance, the National Loan and Investment Board may change the designation of any position authorized for the same in Commonwealth Act No. 7 and in this Act, and consolidate two or more of said positions: PROVIDED, That the salary for each consolidated position shall not exceed five thousand pesos per annum: PROVIDED, FURTHER, That this authority shall only be in force until June 30, 1937.*

F.—DEPARTMENT OF JUSTICE

A total appropriation of ₱3,355,718 is requested for the year 1937 for the bureaus and offices under this Department, as compared with ₱3,466,640.90 authorized for the current year, or a decrease of ₱110,922.90. This decrease is due to the elimination of the appropriation for the Industrial Division of the Bureau of Prisons, which has been placed on a revolving fund basis, and to reductions in items for salaries due to retirements and for sundry expenses. Of the total savings, the amount of ₱13,185.10 is offset by the proposed increase of the salary of the Solicitor-General, which is considered incommensurate with the importance of the position; new positions for stenographers and other personnel for the Courts of First Instance; and for a private secretary of the Secretary of Justice.

Una consignación total de ₱3,355,718 se pide para las Oficinas bajo este Departamento para 1937. Comparada esta suma con ₱3,466,640.90 autorizada para el presente año, resulta una disminución de ₱110,922.90. Esta disminución se debe a la eliminación de la consignación para la División Industrial de la Oficina de Prisiones, la cual fué colocada sobre la base de fondos reembolsables, y a las reducciones de las partidas para sueldos por causa de retiros, y para gastos varios. Del total de ahorros, la suma de ₱13,185.10 está compensada por el propuesto aumento del sueldo del Procurador General, lo cual se considera inadecuado para la importancia de su cargo; por nuevos puestos de taquígrafos y otros empleados para los Juzgados de Primera Instancia, y de un secretario privado del Secretario de Justicia.

These increases, however, are partly offset by reductions of other items of appropriations amounting to a total of ₱82,945.

Para el año próximo, la suma de ₱3,955,925 se pide para este Departamento contra ₱3,722,716 autorizada para el año en curso, o sea, un aumento de ₱233,209.

La cantidad total de aumentos alcanza a ₱316,154 consistentes en (1) la creación de 116 nuevos puestos de moneros y guardias forestales; (2) gastos de replantación de bosques de conformidad con la Ley No. 3283; (3) gastos para la prevención o extirpación de las plagas y enfermedades de animales y agrícolas; (4) gastos del Consejo Nacional de Investigación de acuerdo con la Ley No. 4120; (5) construcción y equipo de un horno de desecación y planta para el tratamiento de madera; (6) gastos relacionados con la conservación de los recursos piscatorios y el fomento y desarrollo de la industria pesquera; (7) una nueva partida para gastos de publicidad de Filipinas y (8) gastos para establecer, funcionar y mantener diez nuevas estaciones de previsión del tiempo. Estos aumentos, sin embargo, están en parte compensados por las reducciones de otras partidas en las consignaciones que montan a un total de ₱82,945.

H.—DEPARTMENT OF PUBLIC WORKS AND COMMUNICATIONS

The total amount of appropriations requested for 1937 is ₱4,392,939 for the bureaus and offices under this Department. This is ₱186,568 greater than the total appropriations authorized for the current year. The increase is due to the creation of a number of new positions, the great majority for the Bureau of Posts; increases in some items of sundry expenses, mostly for transportation of mail, and in that for furniture and equipment, as well as in those for the upkeep, maintenance and repair of air ports, landing fields and air navigation facilities, maintenance and repair of the Kennon and Naguilian Roads and the road from Camp One to Damortis, and maintenance and repair of cable and telegraphic lines and radio stations; and the elimination of the forced saving of ₱82,487 in the appropriation for salaries and wages of the Bureau of Posts. The said increases, however, have been partly offset by reductions in other items of salaries and wages, sundry expenses and special appropriations.

La cantidad total que se pide para las Oficinas bajo este Departamento para el año 1937 es ₱4,392,939. Esta suma es ₱186,568 mayor que la consignada para el presente año debido a la creación de nuevos puestos, la mayoría de los cuales es para la Oficina de Correos; al aumento en algunas partidas para gastos varios, mayormente la transportación de correspondencia y la compra de mobiliario y equipo; al aumento en las consignaciones para la conservación y reparación de puertos aéreos, campos de aterrizaje y otras facilidades para la navegación aérea, conservación y reparación de las carreteras Kennon y Naguilian y la carretera desde el Campamento Uno a Damortis, y conservación y reparación de las líneas cablegráficas y telegráficas y estaciones radiotelegráficas; y a la eliminación del ahorro forzoso de ₱82,487 en la consignación para sueldos en la Oficina de Correos. Estos aumentos, sin embargo, están en parte compensados por las reducciones en otras partidas para sueldos y salarios, gastos varios y consignaciones especiales.

I.—DEPARTMENT OF PUBLIC INSTRUCTION

For the next fiscal year, the sum of ₱18,703,634 is requested for this Department as against ₱18,506,765.40 authorized for the current year, or an increase of ₱196,868.60. This additional outlay is needed for the creation of a number of new positions for doctors, nurses, attendants and other personnel for the Psychopatic Hospital, Philippine General Hospital and San Lazaro Hospital, the present personnel being inadequate to the extent of the services that are being required of these institutions; for the increase in the appropriations for consumption of supplies and materials (due to increased cost of subsistence of the greatly increased number of patients in the Psychopatic Hospital) and other sundry expenses; and for purchase of medicines and medical supplies and instruments for distribution to public dispensaries in the municipalities. The said additional expenditures, however, are partly offset by reductions in other items of appropriations.

Para el próximo año, la suma de ₱18,703,634 se pide para este Departamento contra la suma de ₱18,506,765.40 autorizada para el presente año, resultando un aumento de ₱196,868.60. Este gasto adicional es necesario para la creación de nuevos puestos para médicos, enfermeros, asistentes y otros empleados para el Hospital Psicopático, Hospital General de Filipinas y Hospital de San Lázaro, siendo inadecuado el personal actual de dichos hospitales para rendir los servicios que se requieren de estas instituciones; para el aumento en las consignaciones para consumo de efectos y materiales (debido al aumento del costo de subsistencia del creciente número de pacientes en el Hospital Psicopático), y para otros gastos y compra de medicinas, efectos e instrumentos médicos para la distribución en los dispensarios públicos en los municipios. Parte de dichos gastos adicionales está, sin embargo, compensada por las reducciones en otras partidas de las consignaciones.

[2. Any provision of existing law to the contrary notwithstanding, any unexpended balance of the appropriation for sundry expenses of the Department of Labor for 1936 may be used to cover deficit in any item of the said appropriation except for salaries and wages.]

K.—SUPREME COURT

For the ensuing year, the sum of ₱230,256 is requested. This amount is ₱30,693 more than that authorized for the Court in 1936, after setting aside a saving of ₱87,660 due to the abolition, in accordance with the provisions of Commonwealth Act No. 3, of four positions of Associate Justices and to the resulting reduction in personnel and appropriations for sundry expenses. The increase is due to the item of ₱36,000 for rental of the Ayuntamiento, which formerly formed part of the appropriations for the Department of the Interior. Part of it, however, is offset by slight reductions in the appropriations for sundry expenses and the conversion of the item for holding the bar examinations into expenditure payable directly from the receipts.

Para el año venidero, se pide la suma de ₱230,256 para la Corte Suprema. Esta cantidad es ₱30,693 mayor que la consignación total para 1936 después de haber realizado un ahorro de ₱87,660 por la abolición de cuatro puestos de Magistrados, de acuerdo con la Ley No. 3 del Commonwealth, y la reducción consiguiente del personal y de las consignaciones para gastos varios. El aumento se debe a la partida de ₱36,000 para el alquiler del Ayuntamiento, que anteriormente formaba parte de las consignaciones para el Departamento del Interior. Parte de dicho aumento está, sin embargo, compensada por ligeras reducciones en las consignaciones para gastos varios y por la conversión de las partidas para celebrar exámenes de abogados en gastos pagaderos directamente de sus ingresos.

L.—COURT OF APPEALS

The amount requested for the Court of Appeals for next year is ₱249,407 as against ₱260,080 authorized in 1936, or a decrease of ₱10,673. This decrease is due to the reduction in the salaries of a few positions, the abolition of two positions and slight reductions in the appropriations for sundry expenses and furniture and equipment.

La cantidad que se pide para el Tribunal de Apelación para el año entrante es ₱249,407 contra ₱260,080 autorizada para el año de 1936, o una disminución de ₱10,673. Esta disminución se debe a la reducción en los sueldos de algunos puestos, la abolición de dos puestos y las ligeras reducciones en las consignaciones para gastos varios y compra de mobiliario y equipo.
