**BRITISH CHURCH GROUP
LAUNCH ATTACK ON
ROMAN CATHOLICISM**

LONDON, May 10.—The World Evangelical Alliance Council of Protestant Churches stated today "to avoid alliance of any description with Rome."

The Alliance said in the publication Evangelical Christianity today:

"Let Protestants beware of allying themselves with Roman Catholics with whom they have no real unity of spirit and of the false hope that they can resist the advance of communism."

The group declared: "History may well prove Roman Catholicism with its corruption of Christianity to be a greater enemy of the Church of Christ than communism. Residence in Roman Catholic Italy or Spain would confirm that opinion."
