

SANTA CECILIA Mining Company, Inc., is concentrating its major exploration activities by blocking ore on its lode gold property in Cagayan Misamis, Mindanao, the office of the firm announced. Teodoro Robles, president and manager, reported that the work is progressing with good results. Early next year, Mr. Robles expects to push all the exploration and development work in all the properties of the company which are now under active exploration.

PILON GOLD Mining Association held its annual stockholders meeting at its offices at the Kneeder building on December 11, at 2:00 o'clock sharp. Development of its copper property in Talahib, Batangas, which the company has under option was taken up at the meeting.

Juan D. Singson, mining engineer, who has just arrived from the property said that some improvements in the mines have been made and the work is satisfactory. Two Americans of private firms have also visited the property for the purpose of buying copper ore. The engineer has recommended further development work.

COSMOPOLITAN LODE, Inc. announces that the work in its property in Zambales, which was temporarily suspended due to unfavorable weather conditions has been resumed.

SAN RAFAEL GOLD Mining Association has sent notice that a general annual meeting was held on December 13, at two o'clock in the afternoon at its offices in the Kneeder building. A discussion of the development of its several chromite and copper properties under option was the main business of the meeting.

The management declared that Juan D. Singson, mining engineer will proceed to the mines in Zambales soon to visit the property and to determine what steps will be taken for the exploration of the mines and to make a program for the future development of the chromite and copper properties.

Ild. Coscolluela, of the brokerage firm bearing his name, was yesterday elected president of

the International Stock Exchange, vice Miguel Cuaderno, who resigned. Mr. Coscolluela was formerly vice-president of Manila's junior stock exchange.

The resignation of Mr. Cuaderno resulted from a technical ruling of the directors that the president and the attorney of the exchange might not be the same person. He will continue to serve as the legal counsel of the exchange, and as a member of the board of directors.

N. E. Mullen was elected vice-president to take the position vacated by Mr. Coscolluela.

GEORGE W. HEZZELWOOD, assistant chief engineer of H. A. Wendt and Company, left Manila yesterday for a combination vacation-business trip to Australia. He will be gone from four to six months, during which he will engage in consultation work on a shaft-sinking project in Eastern Australia near Lake George, about 4 miles from Sidney.

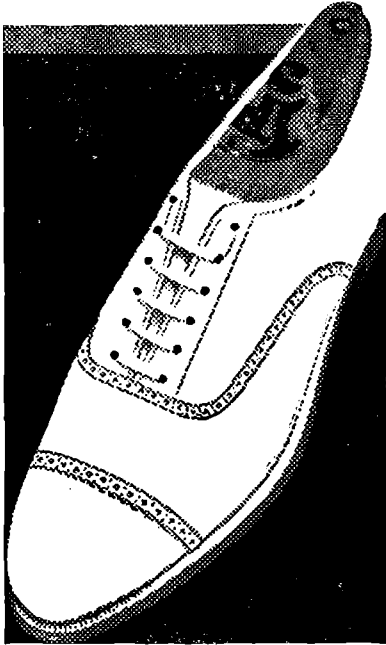

Mr. Hezzelwood's family will stay in Baguio during his absence, and Mrs. Hezzelwood will go to Australia later to return to Manila with her husband. He will resume his duties with the Wendt interests on his return.

NORTHERN AGUSAN Mining Development Company, Inc. has already shipped the machinery to separate gold from the sand to its Cabadbaran, Agusan placer property, the management announced. The company has also signed a contract with a Japanese firm for the sale of its iron ore in Montalban, Rizal. In view of the contract with the Japanese firm, the corporation has decided to extend the Manila Railroad line from the town of Montalban to the mine site, a distance of less than two kilometers. This is to reduce transportation costs of shipping the iron ore to Manila.

UNITED ITOGON Mining Company, Inc. reports that Boris V. Tusheff, mining engineer, has recommended operation of its two placer properties in Dalupirip, Itogon Mountain Province, particularly the Asin placer which has gold content ranging from ₱1.28 to ₱1.95; according to his report and the Tebbo placer with gold content from ₱.30 to ₱.60 new price of gold per cubic
