

Con las bombas de aviones enemigos llegan "regalos" utiles a los nipones

(De la Agencia Domei)

Desde una base japonesa en Birmania, 3 de abril.—Ademas de realizar destructores ataques contra el enemigo, nuestras fuerzas estan disfrutando de "regalos de la Casa Blanca" que los aviones enemigos dejan caer a intervalos. Estos "regalos" incluyen bombas incendiarias, paracaídas y alimentos.

En cada raid los aviones enemigos dejan caer numerosas bombas incendiarias que vienen a ser un buen sustituto para la leña. Después de cada raid nuestros mandos hacen una recorrida para recoger los trozos arrojados de las bombas y que sirven para hervir agua. Con una libra de esta "contribución" del enemigo, un lambi leng de agua puede ser hervido facilmente, permitiendo a muchos soldados disfrutar de un baño caliente.

Con cada avion enemigo abatido por nuestras fuerzas dos o

tres pilotos enemigos llegan a tierra en paracaídas. Después de capturar a los paracaidistas enemigos, nuestras fuerzas cortan las paracaídas en pequeños pedazos y hacen ellos buenos pañuelos, toallas y hasta camisetas.

Con respecto a los alimentos, los aviones de transporte enemigos suelen arrojar a hurtadillas dejando caer alimentos destinados para tropas enemigas que han desordenado fuertemente de los aviones. Sin embargo, como las tropas enemigas fueron dispersadas por la fuerza avalancha de nuestras fuerzas y los transportes enemigos temen ser descubiertos ellos dejan caer rapidamente sus provisiones y huyen.

Como resultado, muchos provisiones han caido dentro de las líneas japonesas. Los alimentos incluyen la carne de loro en lata, hinchita y otras cosas agradables al paladar.

Unos demócratas en America quieren control "blanco" sobre las elecciones

(De la Agencia Domei)

Libros, 5 de abril.—Un despacho de Nueva York dice que los demócratas reaccionarios de los estados del sur han expresado una vehemente oposicion a la decision de la Corte Suprema de los Estados Unidos, anunciada ayer, en el sentido de que los negros tienen derecho en las elecciones primarias a nominar candidatos para el congreso, dando pruebas asi de su firme determinacion de conservar el control "blanco" sobre la maquinaria electoral.

Los caudillos demócratas de los estados del sur expidieron una declaracion alegando que la decision viola los "derechos del estado", perjudicando las relaciones interraciales predominantes en el sur y amenazando crear una grave situacion.

Los informes de Washington dicen que la decision de la Corte Suprema ha levantado la posibilidad de que algunos estados del sur abandonen el sistema de las elecciones primarias y vuelvan al metodo de seleccionar candidatos politicos mediante convenciones.

El Senador John H. Overton, demócrata de Louisiana, indico tambien la probabilidad de que se abandonen las elecciones primarias para "sostener la regla de la supremacia blanca."

total de 93."

Nueve aviones fueron abatidos por los nipones

(Especial de LA VANGUARDIA)

Tokio, 5 de abril.—Con las decisivas batallas navales que las fuerzas japonesas y las anti-Eje intensifican en todo el frente del Asia Oriental Mas Grande, los golpes del brazo aereo del Ejército japonés durante el mes de marzo ultimo revelan un aumento comparado con los del mes de febrero.

Como habian anunciado los Cuarteles Generales Imperiales esta tarde, las fuerzas aéreas del ejército abatieron 321 y dañaron gravemente 186 aviones anti-Eje el mes pasado. Estos triunfos corresponden a un aumento de 80 aviones comparados con los del mes de febrero ultimo, durante el cual la fuerza aérea del ejército abatió o dañó gravemente un total de 407 aviones.

De lamentable en este respecto que nuestras pérdidas el marzo último—44 aviones que se lanzaron los objetivos enemigos o que no han vuelto aun a sus bases y otros 49 que fueron seriamente dañados el suelo, haciendo un total de también aumentaron en 13 comparadas con las de febrero durante cuyo tiempo perdimos 80.

El numero de aviones anti-Eje que atacaron diferentes puntos en el frente del Asia Oriental Mas Grande durante los dos meses demuestran hostilidades navales intensificadas y areas de combates en el aire mas concentradas.

Sobre China, los atacantes au-

mentaron de 160 en enero a 188 el febrero ultimo y luego a 383 en marzo ultimo, demostrando claramente que la ofensiva anti-Eje ha aumentado gradualmente, particularmente en el aire. Se ha dado cuenta de que varios bombarderos Boeing B-29 volaron recientemente a Kweiling, provincia de Yunnan, con vistas a reforzar al 14.º cuerpo aereo americano en China.

Por el contrario, sobre Indo-China, Francia, Tailandia y la region noroeste, los atacantes anti-Eje el marzo ultimo disminuyeron en 50 comparados con los del mes de febrero. La razon es que el campo anti-Eje ha tenido que usar no solamente aviones de transporte sino tambien muchos de sus bombarderos y aviones de combate para el transporte de provisiones y para el rescate de tropas paracaidistas que descendieron en el sector de Katha en Birmania.

Sobre Nueva Guinea, por otra parte los atacantes anti-Eje el marzo ultimo aumentaron en unos 400 comparados con los de febrero, simultaneamente con la intensificacion de las hostilidades en tierra.

Sobre la isla de Bougainville, los atacantes abundantemente aumentaron en 1,754, de 4,296 en febrero ultimo a 6,050, en marzo ultimo, afectados por la positiva accion de las fuerzas japonesas de la isla sobre la posicion fortificada anti-Eje en el Cabo Torokina, lanzada a principios de marzo. Se ha demostrado que la fuerza aerea anti-Eje en el sudoeste del Pacifico concentro su fuerza en el rescate de los defensores de Torokina.

de liberación

El Netaji declaro que una institucion que este en contra de este principio tiene que desaparecer. Dijo que como política social esta fundamentalmente opuesta a la de los ingleses que sofoca a la poblacion india con ciertas instituciones que son enteramente atavicas. Dijo que la política es liberar a todo el Asia Oriental política y económicamente.

Esto va a resultar no solamente la mas grande revolucion política sino tambien la mas grande revolucion económica. Añadió que el no espera mucha dificultad u oposicion, puesto que la influencia inglesa ha sido eliminada de la India, añadiendo que el pueblo indio acatara con jubilo el nuevo orden.

Como ejemplo el Netaji menciono la movilizacion total de los indios en el Asia Oriental, quienes, voluntariamente al frente, se unieron voluntariamente al ejército nacional indio.

Los indios que han estado dejando llevar por el individualismo, ahora salen al frente para contribuir con sus esfuerzos a los intereses de todo el mundo, dijo el Netaji, añadiendo que en Nueva Birmania, durante los últimos meses, los indios han expresado su voluntad de ceder todo cuanto poseen al gobierno provisional.

Declaro: "Ayer el indio mas rico de aqui me hizo entrega de un cheque en blanco y una declaracion de su cuenta en el banco, diciendome que escribiese la cantidad que quisiese. Respondo que una vez que la influencia extranjera fuese eliminada de la India, los indios serian contentos al frente para cooperar.

Los dos proclamas del gobierno provisional

Refiriendose a las dos proclamas expedidas por el gobierno provisional, el Netaji aseguro que la primera proclama ejercitaba al pueblo indio que iba a la India, le protegeria, advirtiendole al pueblo indio lo que debia esperar y no dejarse enganar por la propaganda inglesa. Dijo que durante la campaña de Birmania, los ingleses iniciaron un fiero movimiento de propaganda que hizo que 500,000 indios evacuasen esterilmente Birmania.

Los ingleses podrian intimidar a las masas indias para que destruyan todo y huyan diciendoles que van a ser muertos.

La segunda proclama, que esta

En la madrugada del 30 de marzo, una unidad especial de servicio bajo el mando de un teniente, recibió ordenes de proceder como vanguardia para la captura de la aldea de Timah. Esta unidad avanzo a lo largo de la orilla derecha del rio Kaladan que se hallaba envuelto por una densa neblina.

Una fuerza de unos 500 soldados del Africa Occidental, estada delante de ellos. El Sargento Kurablan y el soldado de primera clase Sukunim, fueron enviados a la guisa de la unidad india.

Mientras esperaba el cielo sobre el anaroto valle a lo largo del rio Kaladan, ellos avanzaron sobre el enemigo.

Después de atacar al aerodromo de Indaw

(De la Agencia Domei)

En alguna parte de Birmania, 5 de abril.—Las unidades aereas del ejército nipón, en el curso de dos raids sobre un aerodromo enemigo cerca de Indaw, en la parte superior de Burma, causaron destrucción en los aviones enemigos así como en sus instalaciones terrestres.

Una formación de bombarderos japoneses de piñón alacó el aerodromo al noroeste de Indaw donde descendieron las tropas aereas enemigas en la noche del 3 de abril y en el amanecer del 4 de abril.

Tan pronto como los aviones japoneses llegaron sobre el "blanco" los cañones anti-aerios del enemigo abrieron fuego con un fuerte barrage, pero los bombarderos nipones conservando su perfecta formación se lanzaron sobre el objetivo y a las 10:30 volaron

cuatro aviones Douglas B-23 y siete hidroplanos.

Los atacantes soltaron tambien bombas sobre las baterias anti-aerias silenciando a la mayoría de ellas, ademas de dañar grandemente la pista y otras instalaciones militares. Todos los aviones japoneses regresaron a su base indonesa.
