

Trapping A Tiger

The strip on the left, sent to the Marsman Magazine by V. V. Clark, of the geological and field engineering staff, shows graphically the execution of a tiger in a deserted military camp 14 kilometers from Taloek, in the Netherlands East Indies.

The execution of the tiger in the trap might at first thought seem hardly sporting, Mr. Clark wrote, but this particular cat was becoming bolder and bolder around the residences. Stealing pet monkeys was his forte, and those in charge were somewhat of the idea that he might have tried a man for a change of diet.

The animal was a beautiful specimen, as the snapshots show—and might well have been a dangerous one! The life of a mining engineer has its hazards, wouldn't you say?

Wide Mining . . .

(Continued from page 14)

State School of Mining, University of Arizona, South Dakota State School of Mines, Virginia City School of Mines, University of Minnesota, University of Wyoming, Cambridge University, England; Wisconsin Mining School, University of Illinois, Royal Naval Academy of Norway, and University of Wisconsin have all contributed one.

Almost half of these men have had experience in the United States; approximately one-eighth in Mexico and one sixteenth in South America. The work of the rest took them to areas divided between Canada, Alaska, China, Australia, Scotland, Korea, Manchuria and Africa.

Itogon Mining

delays due to labor and shipping strikes in the United States. The large expenditures involved consequently could not be met from production as had been anticipated. The directors having under consideration the proposed payment of an interim dividend at this time have concluded that sound business prudence should deter an outlay of cash for dividends when expenses for these capital investments have not been liquidated. Accordingly, the matter was deferred.
