

Our School Bank By ISIDRO GANO (II YEARS OLD)

AT OUR SCHOOL we have a school bank, It was started by the principal of our school because there seemed to be a need for it. Sometimes boys and girls have to bring some money to school so that they can go to a store or to the market after school and buy something for their parents. In order that they would not lose their money, they would ask their teacher to take care of it. So now we have a school hank to look after such money.

If any pupil wants his money to be cared for, he takes it to the principal. She receives the money, writes the pupil's name in a little book, and the amount of money. Then she writes the pupil's name on a small card, and the amount of money deposited. This card is given to the pupil.

When the pupil wants to draw out the money from the school bank, he takes the card to the principal

and the money is given him. is the rhythm band, in The principal writes the which various percussion word "withdrawn" across instruments are played to duced by a bird? pil's name in the deposit is played on the piano. The feather. and keeps time with a baton

Some of the older pupils posit card, he can draw out told about some of the great composers of music. We got this information from YOUNG CITIZEN. Our music teacher illustrated each of these musical biography talks by playing on the phonograph a composition by that composer.

Everybody was very much pleased with our music demonstration, and said that it showed that our school does good music work. It was so successful that our music teacher says we may have another next year. Now we all will work hard at our music in school, so we will have nice things to give in our next music demonstration.

pictures. On the side walls we had mounted groups of smaller pictures-many of which were colored. In all large sized copies of famous we have more than a hun-Above these dred different pictures in

FEATHERS (Continued from page 208)

#### QUESTIONS

1. How is a feather pro-

2. Name the parts of a

Why is a feather "one of the most beautiful things in nature"?

4. How are feathers used?

5. Why are birds above reptiles in intelligence?

6. What is a "soft" feather?

7. What birds have "soft" feathers?

8. What is a "hard" feather?

9 What birds have "hard" feathers?

10. If you live in or near Manila, go to the Aquarium if possible, and look at the feathers of different birds there.

Each week we study one of these pictures. Our teacher has a book which tells about many great paintings, so she tells us about some picture which is described in her book. We learn something about the painters of the pictures.

Many parents come to see our "schoolroom beautiful" as we call it. So it is having an influence in the community toward creating a love for beautiful pictures.
