

$$2 + 0 = 2$$

$$3 + 0 = 3$$

## Making Three and Two

by Vicente S. Maglalang

Again the little men come to you:  
Now learn to add with three and two.

2 and 1 are only 3;

That's not hard you will agree.

For making 2 add 1 and 1;

I am sure that's quickly done.

3 and 0 are only 3,

And 2 and 0 are 2 you see.

Now these jolly little men,  
Each month in THE YOUNG CITIZEN,  
Have made it very plain to you  
Just how to add from 10 to 2.

GOODBYE
