OFFICE OF THE
VICE PRESIDENT OF THE
PHILIPPINES
Malacañang

I am happy to greet the officials, delegates, and participating athletes in the 1969 Public Schools Interscholastic Athletic Association Meet, which is scheduled to be held from March 16-22, 1969, in Pili, Camarines Sur.

Regional athletic competitions are an important extra-curricular activity in our schools not only as a means for developing physical fitness of the participants, but also for discovering potential athletic giants. It is through these meets that we can develop the skills and stamina of our athletes for future world competitions.

My best wishes to the officials and athletes of the PSIAA for a most successful and fruitful meet,

Manila

OFFICE OF THE MAYOR

Message

I join all Bicolanos in welcoming the guests and the eight regional delegations to the 1969 Public Schools Interscholastic Athletic Association Meet.

This meet will project not only the value of sportsmanship but the need to support athletic development in the country. In the very poorly in international athletics knows, this is the result of our apathetic attitude towards the development of our sports. We hope, therefore, that this 1969 PSIAA Meet will open the people's mind for a better and bigger support to athletic growth in our country.

Again, welcome to all the guests and participants in the Meet.

(Sgd.) VICENTE P. SIBULO
City Mayor

Sunday, March 16-Opening Ceremonies-Part I-12:30, Assembly of Athletic Delegations at the Cam. Sur High School Campus, Naga City, 1 p.m. Motorcade around Naga City and the Municipality of Pili to Interscholastic Meet Grounds.

Part II-1 p.m. Blessing of the Marcos Stadium. Cutting of ceremonial ribbon by the First Lady, Mrs. Imelda R. Marcos, assisted by high government officials and their ladies. Blessing of the Grandstand and Swimming Pool by Archbishop Teopisto V. Alberto of Caceres Diocese.

Part III-2 p.m. entrance of the parade into the Athletic grounds, with the different delegations of athletes and officials of the meet and bands.

Part IV-Opening program. Municipal Mayor Jose Velarde of Pili and Prov. Gov. Armando B. Cledera will give the welcome addresses and followed by speech of President Ferdinand E. Marcos, the guest of honor and speaker of the day. Mass playground demonstrations will close the afternoon's program, participated in by thousands of school children and teachers. Demonstrations and folk dances are scheduled in the afternoon of March 16, 19, and 22.

From March 15 to 21 there will be social and cultural affairs sponsored by different entities in the afternoon or evening at different places.

Track and field events, softball, basketball, volleyball, tennis, archery, badminton, table tennis (boys and girls) except baseball, will be played from March 17 to 22.

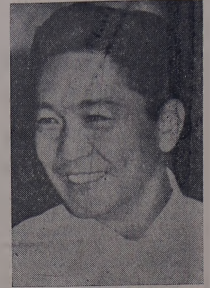

Participating athletic associations of public schools are Northern Luzon, Central Luzon, Manila-Pasay-Quezon - Calocan Cities, Southern Tagalog, Bicol, Eastern Visayas, Western Visayas and Mindanao.

Being the biggest athletic event of the Philippines and the first one to be held here in Cam. Sur, it is believed that a big crowd of expectators will witness the games throughout the meet. High government officials of the different provinces and of Manila are also present.

The Interscholastic Meet in Pili, Camarines Sur offers opportunities for enhancing our present effort to promote physical fitness and raise athletics to a higher level. The administration has initiated this twin program as a way of restoring the high prestige our country once enjoyed in world sports. But more than that, we want citizens who are finely balanced in mind and body.

It is my pleasure, therefore, to welcome the delegates and congratulate the sponsors of this meet, with the earnest hope that our youth, in striving for perfection under the disciplines of sports, will also strive for meaningful participation in nation-building under the disciplines of good citizenship.

Message

As a nation, it believes that we should all be concerned for

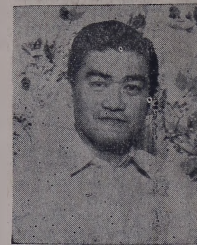

our national survival like any other nation of the world. The fundamental objective of any nation is to build a civilized and healthy citizenry. The program of government for agricultural and commercial progress calls for the backing of a sturdy, vibrant and healthy people both in mind and body for its successful realization.

From the beginning of time, when Empires and Kingdoms sprouted on the surface of the earth, whether in battles fought by each other or in the race for implementation of government programs for material progress, the nation who had the best physical development training always emerged triumphant.

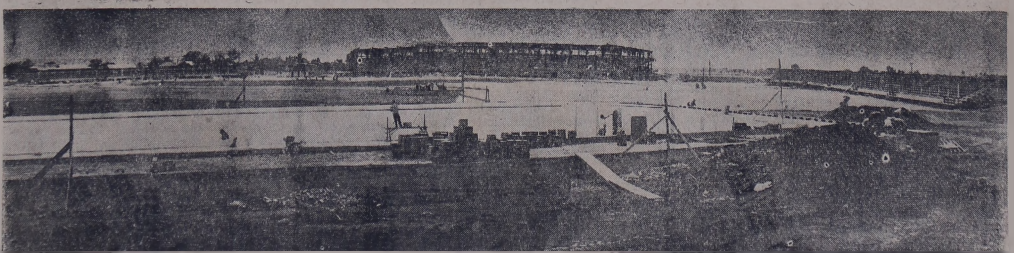

We have already proved our physical capabilities both in the battlefield and in the fields of sports and we shall continue to build ourselves energetically.

Wishing all our visitors and guests full enjoyment during their short sojourn in our province.

To all the athletes I say exert

BSP officials visit Jamboree site

Boy Scout officials all over the country who attended the kick-off ceremonies for the BSP Membership Campaign at Malacanan recently visited the site of the 4th National Jamboree of the Boy Scouts of the Philippines in Palayan City. The key-3 officials council presidents, committeemen and scout executives representing 69 local councils in the Philippines were accompanied by several members of the national executive board of the BSP and members of the national staff. They were warmly welcomed by officials of Nueva Ecija led by Jose P. Dizon, president of the Nueva Ecija Boy Scout Council. The 4th National Jamboree, with an expected attendance of 9,000 Scouts and Scouters all over the country and from overseas, will be held on May 10-18 in Palayan City.

The visitors were impressed by the progress of the work being done to build the Jamboree City. They were surprised to see at once lonely spots slowly being transformed into a big community with complete facilities. The task of building the Jamboree city was laid squarely on the Physical Arrangements Committee of the Jamboree headed by the undersecretary of Public Works and Communications Manuel B. Syquo. The action group of this committee is dubbed Task Force 69 whose officer in charge is General Eduardo Garcia, commanding General of the First Tabak Division at Fort Magway.

General Garcia briefed the visitors on the work being done to build the Jamboree City. He said that the road network was completed and that buildings that would house the offices of the various Jamboree services were nearing completion. Garcia assured the delegates that the Jamboree will have lots of water and such facilities as light, communication system, post-telegraph services, trading posts, central mess, radio-TV center, communal chapel, medical clinics and hospital, motor pool and many other services. Garcia said that the Jamboree City will be completed by the end of March.

General Garcia and Provincial Commander Jose B. Gutierrez allayed fears on the peace and order situation by saying that Nueva Ecija is a peaceful place and that all-out efforts will be exerted by military and police agencies to keep the Jamboree City safe and secure. The full implementation of the security plan laid out by the authorities will insure peace and order in the Jamboree City.

The Scout officials toured the entire Jamboree site and made an ocular inspection of their respective sub-camps where they designated the contingent campsites. Earlier in the day, they were greeted by General Garcia who showed them around the area and explained the various projects being undertaken in the fort.

FROM THE HILLTOP

Listen and Learn Diplomacy

THE NIXON WAY - As a former business executive - the incumbent President of the United States has been referred to as one of the most powerful Americans and as Chief Executive of the most powerful super-power, President Mitt-hails Nixon will have a chance to get restive and oftener will have the opportunity to visit every ally of the 'free world' thru his 'listen-and-learn' tours. Completing his western European visit recently, he is out sounding his allies about his projected summer itinerary to Soviet Russia for a face-to-face dialogue with the Khrushchev leaders.

As a two-term vice-president under the Eisenhower administration Mr. Nixon nevertheless covered almost all countries in South America, Europe and Asia with the exception of course of Red China. In South America as a goodwill representative of Pres. Eisenhower - Mr. Nixon on several occasions had been spotted at and thrown with tomatoes and eggs. And at a Moscow agricultural and industrial exposition while visiting the American fair he is remembered for his famous 'kitchen debate' with the former Soviet Premier Nikita Khrushchev.

With the above experiences - we can very well foresee that the Nixonian theory of learn-and-listen diplomacy will give the American leader an on-the-spot observations to understand world problems and to effect factual remedies with a view to ease world tensions and to avoid the dangers of a growing menace of nuclear confrontation.

ABRIDGEMENT OF PRESS FREEDOM

LET THE FLOWERS BLOOM - At the least this writer would like to congratulate that segment of our youth activist whose propensity it is to advocate for reforms against the heavy handed alleged manipulations among local columnists, newsmen and radio commentators. The 'protest' indeed I should consider as deserving more than just a 'grain of salt'.

Insofar as the motives are concerned - responded is a matter of dire necessity among members of the fourth estalors. Let alone that our budding newsmen are 'on the level' so to say - the challenge is an encouragement that should be developed without a whimper if to attain the perspective of a newsmen 'on the beat' is a YARDSTICK for self-analysis and improvement.

ACCELERATED APPROACHES - I was able to listen by remote control coverage at my hilltop hideaway to a sizeable portion of the student (press week) rally at Naga City Quezon Square. For obvious reasons known only to the student activists - I could not discern a formal presentation of an accelerated guideline intended to improve the performance of a 'misfit' columnist, a newsmen or the radio commentator. By reading a glossary of names will not make the name any better. Niek Joaquin of the Free Press is a mere high school graduate yet his short stories and other writings are superb. So then what is the index of a good writer? Is it because he is a lawyer or a doctor of philosophy degree holder?

I knew of someone who during his freshmen days in college would excel in composition writing. A number of his writings were selected by the English professor and read before the different English composition classes for sheer mastery of simplicity, beauty and thought. I understand the professor is now the dean of graduate studies of a leading university, an acknowledged international short story writer and a novelist of standing in the country today.

I would delight in the encouragement that the professor gave to the freshman: "Your writings can be compared to the best ten in the U. P."

LET FREEDOM RING - Congressman Ramon H. Felipe in a subsequent CSPS press and radio interview - March 2 in relevance to the (press week) student rally at Quezon Square intimated that he should be for complete and unabridged freedom for the members of the press and radio commentators. He said any imposition on thought control is muzzling press freedom and the mass media which is fundamental to our maturing democracy.

It is to be inferred that members of the fourth estate and mass media have a way for articulating varied styles and idiosyncrasies and as a composite group their attitudes also are varied as the complexities of ordinary humdrum life. For it can be pointed out that although what they think or say are faultless or flawless to respond to sophisticated criticisms - yet it can likewise be inferred that the role played by the newsmen and commentators are dimensional in the categorical stand of fiscalizing the thoughts and actions of our leaders who enjoy the glours and pleasures of private and public life.

In our 'troubled' democracy - the columnists, the newsmen, the commentators who keep the beat going altho disregarding ethics yet theirs are the toil to keep the ramparts of freedom shielded by their criticisms day in and day out - intended to preserve our democracy against the inroads of insurrectionist 'evils' attendant in our times.

Presidential Case Needs People's Judicious Thinking

President Ferdinand E. Marcos is definitely coming to Camarines Sur to inaugurate the beautiful landmark which he lovingly dedicated to the welfare and happiness of our citizens. The beautiful landmark which we mean is the now terminated Public School Interscholastic Athletic Field which cost our government ₱1,200,000. It stands as one of the big public projects which was terminated at the exact cost estimated for its construction. No taxpayer of this province lost a peso through red tape, roneo and padded payroll which Senator Osmeña bravely charged as 'attributes of the present Nacionalista administration.

No taxpayer of this province has also known of any roneo and kickback to have benefited anybody from the appropriation of ₱6,000,000 given by President Marcos to this province for the construction of the now almost completed huge Irrigation System at Iriga which will supply water to all the rice fields of Rinconada towns.

The concern of President Marcos for the welfare of our province is shown by deeds because it is in the many school buildings allocated to us. It is in the cemented and asphalted roads and in the continuing work of cementing and asphalted roads and highways.

It is in the several Irrigation Projects already concluded. It is in his ceaseless efforts to increase farm production. It is in his endless desire to help us and to serve us.

It is therefore, paradoxical that the big Liberal leaders would come now and then for no other purpose than to criticize, traduce, vilify and ridicule the very person who is doing his very best to help us, the Bicolanos. For the sake of justice, the Liberals should exercise prudence specially because they themselves know they did nothing beneficial for Camarines Sur during the 4 year period of their Macapagal administration. - A. G. Diez.

I extend my heartfelt greetings to the public schools officials, teachers and delegates participating in the current Public Schools Interscholastic Athletic Association Meet being held this year in Pili, Camarines Sur.

The PSIAA sportfest, I trust will provide a fine occasion for everyone to realize the spirit of sportsmanship so greatly needed in the various arena of life. We know that the good sport is always hailed like an idol even in defeat. But we must always strive for a clean victory to which there is no substitute.

The sports festival, I hope, will serve to instill among the youth the need for developing not only their mental faculties but also their physical capabilities. A sound mind in a sound body remains as the valid goal of our educational system. The PSIAA sports events undoubtedly will contribute much to that ideal.

Again, my best wishes and congratulations.

Spirit, speed, strength, stamina, style and sportsmanship. All good athletes must develop these qualities. All good citizens must appreciate them. No nation can be great without them.

The 1969 Public Schools Interscholastic Athletic Association Meet in Pili, Camarines Sur is the climax of the schools' athletic and physical fitness program this year. I congratulate the officials of the province and the region for hosting the Meet.

The laurel of victory beckons to all the delegations, and may fortune smile upon them all!

tion in sportsmanship, and for general discipline. A population of excellent composition

Good wishes and carry on!

(Sgd.) Gil J. PUYAT

This is an opportunity to stress in the national consciousness the importance of bringing the people to a necessary state of health and physical vigor, in addition to intellectual development and moral, excellence, as an essential prerequisite for successful national social and economic development. To this end of achieving optimum physical well-being, athletic activities constitute an important contributing factor. I hope, therefore, that the 1969 Public Schools Interscholastic Meet shall go a long way in encouraging the population, especially the Youth, toward increased athletic activities for their enjoyment, for their physical development, for their education, always makes for a progressive nation.

The Province of Camarines Sur is fortunate indeed for having been chosen as the site of the 1969 Public Schools Interscholastic Association

Rep. R. H. FELIPE, Jr.

(PSIAA) Meet. It is a great opportunity for us to host the biggest and most popular amateur sportfest in the country today.

The importance of athletics in the education of our youth can never be emphasized enough for true education is the full and harmonious development of the mental, moral and PHYSICAL power of man.

On this historic and memorable occasion, it is, therefore a distinct honor for me to welcome all officials, guests and athletes to our province, which is one of the biggest in the entire country. At the same time, I wish the PSIAA all success in this annual national sports carnival, which has produced many of our entries in international athletic meets.

(Sgd.) R. H. FELIPE, Jr.
Congressman
First District of Cam. Sur

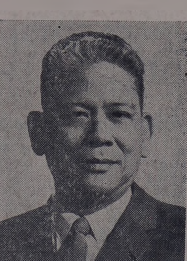

As Co-President of Board of Directors of the 1969 PSIAA meet and the oldest member of the BAA Board of Directors, I gladly extend my cordial greetings to all athletes, officials, and guests to this year's biggest sports festival.

To host this national sportfest in my new Division at Pili, this Province, is not only a rare opportunity for the oldest regional athletic association to assume this gigantic job but also a big challenge to our leadership. We, too, are proud that our climate for regional athletic competition has been responsible for the Bicol Athletic Association to become an enduring institution for generations. Past generations had produced such brave men as Nepomuceno, Saavedra, Tadoran, White, Espiritu, Amante, and a host of other Bicolano athletes that made our country great. Though greater is the challenge to forge ahead in spite of difficulties, our people have constantly proven that like the "molave" in Isarog, Mayon, Bulusan and Virac they have defied the strongest typhoons.

We, of the Bicol Athletic Association have consistently demonstrated that even as we are the smallest of the regional athletic Associations, we cannot settle for something less, trophy or medal-less, we shall stick to play it fair than win. In every national meet we have participated our athletes and coaches have done their best and determination to do better next time have greatly edified and ennobled our spirit.

With our best wishes, may God bless us all!

On the occasion of the 1969 Public Schools Interscholastic Athletic Association Meet, which is scheduled at Pili, Camarines Sur from March 16 to 22, I gladly join my fellow Bicolanos in extending my warm and hearty welcome to the visitors, guests and the representatives at the various competing athletic regions which would participate in this annual national sportfest. It is indeed a pride and an honor for the Bicolanos particularly in my district to host such a wonderful affair. It is worthwhile to note that the recognition of President Ferdinand E. Marcos to the Bicol affairs with the release of P900,000.00 in making this event a success attest, his sincerity and full dedication in the development of this region.

This event is but a sheer manifestation of the true significance of sports as a token and as a way of life in our daily activities. Above all these, the P.S.I.A.A. is an event whose primary aim is to inculcate and at the same time instill in the minds of the youth a deep sense and regard

The holding of the 1969 BPIAA meet in the Municipality of Pili Pili, Camarines Sur, is a proudfest and welcome event for us all Bicolanos. For we feel no greater happiness than to manifest our traditional hospitality on friends and visitors.

In behalf, therefore, of the people of Bicolandia, particularly the residents of Pili, I would like to extend to all the athletes, school officials, teachers and other visitors our warmest welcome and best wishes.

In any competition, there are bound to be victors as well as losers. And in this 1969 BPSIAA meet, I have no doubt that the victors will be magnanimous, while the losers will be resolute to do better next time. But another equally important thing in an athletic contest such as in this BPSIAA sportfest is the spirited participation of the athletes within the framework of sportsmanship and fair play.

To our visitors, and friends: Welcome and may all of you enjoy your stay in Camarines Sur -- the venue of the 1969 BPSIAA meet.

Senator AYTONA

I am extending to all visiting athletic delegations, officials, and visitors from all over the Philippines a most cordial and warm welcome. I hope that this meet will not only develop the health and stamina of our youth, which is the primordial objective of the athletic program of the present administration, but also promote unity and sportsmanship among our people.

UNESCO - NSDB - UST Chemistry Teaching Summer Programme

A summer training programme on chemistry teaching will be held under the auspices of the National Study Group on Chemistry Teaching on May 5 to June 13, 1969 by the University of Santo Tomas with the co-operation and support of the National Science Development Board and UNESCO. This will be a 5-unit course creditable towards an MS or MA degree to be developed by the UST graduate school.

The course will be conducted for six weeks (105 hours of laboratory and 60 hours of lecture) by a team selected chemistry professors.

The objectives of the programme are (1) to broaden the teachers' background in modern concepts and techniques of chemistry teaching; (2) to improve techniques of demonstrating and supervising classroom experiments in chemistry; and (3) to develop leaders in outlying districts where there has been little prior opportunity, who would be willing to spread their experiences to other teachers in the region.

The course will be titled "Selected Topics in Chemistry Teaching" and will cover: molecules, the periodic table, equilibrium, energy of reactions, electro-chemistry, and qualitative techniques.

Participation will be limited to 30 secondary chemistry teachers from government and private schools who will be provided tuition, book allowance, materials, and field trip expenses by NSDB. Travel expenses from and back to the trainee's post will be for his account. The trainees will use for the first time the new chemistry laboratory equipment donated by UNESCO Paris.

This group of Teacher Summer trainees will also have the opportunity to try out the chemistry teaching materials prepared during the workshop conducted by the National Study Group on Chemistry Teaching at the University of Santo Tomas in September 1968.

Preference will be given to teachers who have not received a scholarship or grant during the last five years and who have taught chemistry for the last two years. Invitations to nominate candidates were sent to principals of high schools in Central and Northern Luzon regions.

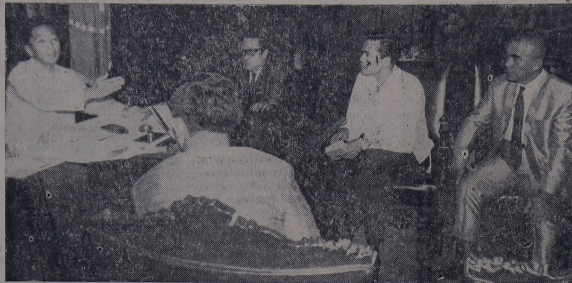

All applications should be received by the National Study Group on Chemistry Teaching, c/o Luzon National Commission of the Philippines, 1580 Taft Ave., Manila, not later than March 7, 1969. Applicants selected will be advised by April 7, 1969.

For it was on Dec. 7, 1938 when Marcos, as a law student was arrested in the University of the Philippines' College of Law for the alleged murder in 1935 of the late Julio Nalundasan, congressman-elect of the second district of Ilocos Norte; it was also on Dec. 7, 1941 when Pearl Harbor was attacked treacherously by Japan. Former Speaker Cornelio T. Villareal, LP presidential aspirant for nomination today appealed to delegates to the party "consensus" on March 22 to cast their vote for the aspirant who has displayed steadfast loyalty to the party and with an alternative program of government.

Villareal also urged to the delegates to nominate a candidate whose honesty and integrity cannot be assailed.

"What is important too," the former Speaker added, "is to nominate a candidate with an enviable record of public service."

Villareal pointed out that he has always remained a Liberal. "In times of stress and strain, when most of our party leaders either refused to stand by the opposition and some even left us to join the NP, I have stood by the party, nourishing and preparing it for eventual return to power," Villareal declared.

He also stressed that in his 34 years of continuous public service, he has, never even for once, been linked to any scandal involving graft and corruption. "My record as a public ser-

vant remains untarnished, and I intend to keep it as such, until I shall have retired in the service of my country and people," he declared.

On an alternative program of government, the former Speaker pointed out, that he is the only presidential aspirant for nomination possessed of such a program. He pointed to his welfare state program as the answer to

the ills and problem confronting the country today.

All over the world today, all progressive and democratic countries have become welfare states, he said.

Summing up, Villareal said that he had "absolute and unflinching faith in the capacity and candor of the delegates to select the ideal presidential nominee of the Liberal Party."

He expressed confidence that he would get the nomination and lead the opposition to victory in the November elections.

The LP called for a meeting of members of the National Directorate and a delegate for every 20,000 voters who voted in the last elections to nominate the party's presidential candidate. The "consensus" will be held on March 22.

Some 850 directorate members and delegates are expected to meet in Manila to choose the LP presidential candidate. The decision of the consensus will be finalized and made official on June 15 in accordance with law.

When the railroad comes into any town,

progress is always the first arrival!

Railroad spurs commercial and industrial activity in all the regions it serves. It is the catalyst that provides momentum and fires change in underdeveloped areas of a country.

Every railroad transport system deserves more than just a token support. To improve, to continue to set the pace of national development.

To prompt progress by meeting the ever-increasing demand for low cost, reliable transportation due expanding agriculture and industrial dispersal, amplification of employment opportunities and increasing levels of income. It should get our patronage and the government's support.

Countries in the world today proclaim railroads as the principal land transportation artery.

This is rightly so. History proves that when the railroad roars into any town, progress is never far behind.

Thank You Mr. President

I had been a real witness to the tough drive undertaken by the members of the Camarines Sur Provincial Board headed by Gov. Armando B. Cledera after they have resolved to bid for the holding of the Interscholastic games here this year. Tough, in the sense that they actually lunged with the other interested parties at Zamboanga City, they have already encountered local resistance he rebuffs by way of press and allied criticisms when they started for the south - towards their objectives.

★ ★

Having won the first round of the "battle" at Zamboanga, ABC and his team braced for the next encounter; the toughest of them all - the procurement of the necessary funds. Little did they realize, it seemed, that their envisioned project was to cost over a million pesos, and by that time the province of Camarines Sur was only capable of putting-up one third of it. In fact, they have only appropriated 300 thousand pesos, purportedly for ground preparations and other incidental requirements. Malacañang has only released a counterpart of another 300 thousand and hinted that their participations ends with it.

★ ★

After Pres. Marcos laid the cornerstone of the would-be Interscholastic village in Pili, on Oct. 6, last year, and after he himself said that athletic complexes doesn't fall within the priorities of his infrastructure program, all expectations about the realization of Gov. Cledera's and his people's dreams started to fade towards frustration. Like a swimmer who has just realized to be alone by himself at mid-stream, ABC and his team resolved to mobilize all resources at their command to complete the project by all means as planned. Some bright boys however, who have an access to the Presidential ears seemed to have whispered something, possibly mentioning among others - the so called hard-line attitude of the Camarines Sur Governor towards Malacañang. Such supposed "attitude" having been played-up by the Governor's critic intentionally or otherwise.

★ ★

As if a real blessing in disguise, FM suddenly made a second look at the press reports of the Governor's manifestations; and then decided to take active participation in the Governor's pet project by way of providing the funds badly needed for the purpose. The rest is history as they appear now of course. And so, as the people of Camarines Sur jointly congratulate Gov. Cledera and his team (the provincial Board), for their untiring efforts and dedication in causing the attainment of such a magnificent objective, the Interscholastic Village of Camarines Sur. We, on the opening of this year's PSIAA games here, also say in unison - THANK YOU MR. PRESIDENT. I, I, I. I am sure power to you, and May the Lord be always with you.

To Publish in Book Form Works of Filipino Writers, Journalists

National Library officials, Director Serapio D. Quison and Assistant Director Andres Cristobal Cruz recently discussed plans for the publication in book form selected works of Filipino writers, journalists, columnists, editorialists, feature writers and photographers. Philippine National Book Director Renato Tagay, journalist and author of the well-known *Sinners of Angeles* book, said the PNB plans to assist in the project through the creation of revolving fund. Assistant Director Cristobal Cruz said the project will also include publishing the works of Filipino writers and scholars who have not yet been published in

book form. Director Quison said the National Library-PNB publishing project will also consider translations of vernacular literature into English and vice-versa as well as reprinting of now out-of-print Tagalog literary works from the 1900s.

Director Tagay said the project is not only in recognition of the significant contributions of Filipino writers to Philippine literature, journalism and scholarship, but also designed to meet the need for more Filipino written books published and printed in the Philippines.

Executive Editor of the National Library-PNB project, Andres Cristobal Cruz, was the publisher of the Filipino Signatures, Managing editor of the Alemar-Phoenix Publishing House, and a writer in both English and Filipino. Miss Juliet B. Fulo Among Six UNC Nurses Who Passed CSC Examinations

Miss Juliet B. Fulo

Miss Juliet B. Fulo, youngest daughter of former Vice-Mayor and Mrs. Querubin B. Fulo of Buntan, Sorsogon recently passed the Nurses Examination given by the Civil Service Commission held in Manila last December 10, 1968 at the Manuel L. Quezon

University. Juliet is presently a staff nurse of the St. Jude Hospital at Iriga City. She started working last June 14 after graduating from the UNC School of Nursing which prevented her from taking up the same examination last June, 1968.

Of the 753 who took the examination, 500 passed, 250 failed and three were given conditional grades. The names of 10 candidates, however, were not released by the examination board and for failure to comply with certain requirements.

The new nurses and all those who passed the previous nurse examinations who have not as yet taken their professional oath, will take their oath at 3 p.m. on Tuesday, March 25, at the Philippine Christian Colleges social hall on Taft Ave., Manila.

Among those who successfully passed the examination who are also from the UNC School of Nursing are: Juliet B. Fulo, Corazon Badilla, Emilia Efonado, Cleo V. Marcellana, Arviante T. Padillo and Shirley G. Rabulan. -gfb

1st Philippine Coco Oil Export to Bulgaria

By: **RAMON A.G. MEDINA**
Masbate Press & Radio Club, Inc. Masbate, Masbate

A shipment of coconut oil to Bulgaria the 1st Philippine export to a communist country, will usher in a new era of Philippine trade in the wealthy markets of Eastern Europe.

The sale of 500 long tons of coconut oil by Legaspi Oil Company to Graexport, a trading firm based in Sofia, Bulgaria, was scheduled last February, 1969. The terms of the sale are in accord with the trading rules and regulations which govern export sales to other European cities like London, Amsterdam, and Rotterdam.

The initial contact between the Bulgarian firm and Legaspi Oil Co., was made by representatives of the Philippine Chamber of Commerce (PCC) during a tour of Eastern Europe. After a study of Graexport's proposal, the Philippines' National Export Coordinating Center (NECC)

recommended approval of the export transaction. Its recommendation was premised on the feasibility of discovering new markets for Philippine traditional exports.

Other trade arrangements and agreements with Bulgaria, Yugoslavia, and Poland have been formally suggested, whereby the Philippines would vend textile, coconut, oil, shoes, and possibly rice. Should these trade prospects be consummated, it would mean increased outlets for Philippine products which have hitherto been exported to traditional markets such as Japan and U.S.A.

In ratifying the 1st transaction with Bulgaria, however, Pres. Marcos state that the sale is not being taken, as a precedent but only as a single case of a practical and acceptable nature. All future transactions will be on a case to case basis. Among others, the transaction must follow the mechanics

Speakout Bicolandia

By JUAN G. FRIVALDO

The transformation of Gen. Carlos P. Romulo from a staunch fanatical pro American to communist coddling foreign secretary has become a juicy topic of speculation.

Some say he is being used as a tool by President Marcos to threaten the United States. Others aver Romulo is too smart to be fooled by Marcos. It could be the other way.

Insiders claim General Romulo has set his target on the job of U. N. Secretary General. The term of the top UN official expires this year.

That would be the crowning glory for the last man to leave Corregidor.

The Coco Chemical Industries of the Philippines, managed by our good friend Juanchito Trivino, has such a big appetite for public funds. It has consumed its capital of P10 million and has reportedly eaten up P10M more. The salaries of its staff are Onassis. It keeps hiring more and more people. It has been inaugurated last month but up to now it is still not operating. It is still losing money but it does not stop giving fat bonuses -- Christmas and mid year. It is even buying a helicopter. It might yet purchase a yacht.

Preserving our patrimony is good reading material. Until you learn that 87% of our lumber industry is in alien hands. Most licenses are in the name of Filipinos but actually they are leased on royalty basis to aliens.

Right in the Bicol region, look at your forest concessionaires lumber dealers and log exporters. Right in Camarines Norte, the home province of our chairman of the House committee on Forestry, the lumber business is in alien hands.

Mainly to blame are our government and our people for selling our patrimony. The biggest culprit is the government. Because although lumber is the No. 1 dollar earner, it does not extend financial assistance to Filipino lumber men. Most of our big Filipino lumbermen in Mindanao get their financing from Japanese and Chinese -- but hardly from Filipinos nor Filipino banks.

The cycle is sickening and disgusting. Maybe we will wake up and apply remedies when there are no more forests, when the floods come more often, when we would not even have water to drink.

That is what is happening to our Bicol National Park. The commercial forest zones have been denuded. The greedy forest lumbermen are despoiling our parks.

Most Bicol politicians are now cramming overnight planning how to make for campaign purposes. Hardly has some of our Bicol majority leaders used this season of easy fund releases to bring an industry into Sorsogon.

This would have been the best time to push through that abhorred pulp plant, sugar central, extend the railroad to Sorsogon, start developing the Tiwi geo-thermal works and the Batan coal mines.

Three years has passed and President Marcos still has to complete that refrigeration plant in Magallanes or put up a PNR refrigerated wagon. Everybody hankers and hopes for a refrigerated train but nobody in Malacañang gives a helping hand to Nick Jimenez.

We are now building that P200 million Greater Manila Food Terminal but we still have not started to develop the market. Maybe on inauguration time, that would be the occasion to buy 200 refrigerated trucks and a dozen trains. We always think of big things on pinhead resources.

Ordinarily at this time turncoatism would be seen a flood towards Malacañang. The reverse is true. Most NP bigwigs are making secret rendezvous with the Liberals. A big hurricane must be approaching.

Congratulations to the Jeyeces for reviving the Operation Quick Count. It still has to see the varistarians and ROTCs making active preparations to keep this election clean. What would their demonstrations amount to if there is no more democracy in this country. Demonstrations are not allowed in dictatorship and communist states. And remember this warning. If we do not act now, this might be our last election. We have a ruthless and almost conscienceless administration, deaf and callous to the people's cries.
