REVIEW OF THE HEMP MARKET By L. L. SPELLMAN International Harvester Company of Phillippines

The following report covers the various hemp markets for the month of October with statistics up to and including October 30th, 1933.

IN MANIA: The market opened firm enough with exporters buying all that was offered, but at the same time there was not a great deal of competition. Prevailing priess were: F, P12.00; F, P10.50; G, P5.50; H, P5.25; I, P.7.75; Jl, P5.05; IS, P7.75; SJ, P6.25; JE, P5.00; L1, P4.50; L2, P4.00; M1, P4.25; BV, P5.00; L1, P4.50; L2, P4.00; M1, P4.25; BV, P5.00; L1, P4.50; L2, P4.00; M1, P4.25; SV, P5.00; L1, P4.50; CV, P5.50; H, P4.50; CV, P5.50; H, P5.25; L1, P5.25; K, P4.75; L1, P4.00; L2, P3.75; J2, P5.25; K, P4.75; L1, P4.00; L2, P3.75; M1, P4.20; M1, P4.20; M2, P3.80; M1, P4.20; M1, P4.20; M2, P3.80; M1, P4.20; M1, P4.20;

The mouth closed with the market rather weaker with sales being made at F, P11.25; F, P10.25; G, P3.25; H, P3.00; H, P4.00; HZ, P3.50; MH, P4.00; HZ, P3.50; MH, P4.00; HZ, P3.25; DM, P2.50. Dealers in the Bicol provinces were inclined to pay higher prices and were, no doubt, influenced by the small receipts in Sorsogon, Albay and the Camarines-To offset this, receipts in the Davao district continue to run heavy and there is undoubtedly a large supply of unsold hemp in the hands of producers and dealers. Prices for Davao fiber range from 50 to 75 centavos a picul higher than ordinary fiber.

THE U. K. MARKET: This market opened quiet. There was a fair demand for distant shipment but manufacturers were evidently not buying and the earlier positions were entirely not buying and the earlier positions were entirely properties. The properties of the proper

THE U. S. MARKET: This market opened dul with sellers on the busis of F, 5-3 8 cents; I, 4-1 4 cents; JI, 3-5 8 cents. Buyers remained scarce and by the middle of the month the exporters were anxious to make sales and were willing to shade prices. Housemarks were being offered freely at F, 5-3 4 cents; F, 5-3.98 cents; G, 3-3 8 cents; J, 4-1,8 cent

Main Office: San Fernando, Pampanga Manila Office: 324 Kneedler Bldg. with Davao hemp from 1/8 cent to 1/4 cent higher. The month closed with the market dull and buyers not interested. Nominally prices had declined about 1/8 of a cent on the average, but in reality hemp could be purchased at least 1/4 of a cent below prices asked at the first of the month.

THE JAPANESE MARKET: This market remained dull and inactive throughout the month with buyers taking full advantage of conditions in London and New York. They bought some hemp but only at prices below replacement value

MAGUEY: This fiber was rather neglected aroughout the month. There is still no demand MAGDEY: Ihis her was rather neglected throughout the month. There is still not demand for Northern Maguey due to the low prices of Sisal, and oply an occasional sale of Cebu. Nominal price for No. 2 Cebu was 74.00 a picul and No. 3 was 73.50. It is understood that some of the Cebu houses were paying slightly better prices.

Propurerion: Receipts continue heavy and average throughout the month 27,250 bales per week. This is more than the world is consuming at the present time. Also, there is a gradual increase in province stocks, especially in Davao, which does not tend to help the situation.

FREIGHT RATES: There was no change in freight rates. The U. K. conference notified shippers that they contemplated making an advance but evidently the matter has been

abandoned for the present. STATISTICS: The figures below are for the period ending October 30th, 1933:

TOBACCO REVIEW

By P. A. MEYER Alhambra Cigar and Cigarette Mfg. Co. CIGARS: Shipments during the month to the United States continued to increase in comparison to the same month of 1932 and if nothing unforeseen happens it may be expected that by the end of the year the volume of last year's shipments may be reached. However, the total value thereof will be much below the
